

ENTENTE BREAK IS HELD AVERTED

TEACHERS TO CAPTURE CITY ENTIRE WEEK

Burling County Institute Opens Today as Forerunner of Big Event

H. S. TEACHERS HERE

Meeting Brings Teachers in High Schools From 6 Counties

Bismarck will capitulate to school teachers of the state this week. As a forerunner of the North Dakota Education Association convention, which will be held here November 21, 22 and 23, the Burling county teachers' institute opened today. At the same time there opened in the high school a high school conference with teachers from Burleigh, Morton, McLean, Emmons, Kidder and Grant present to discuss problems for three days with state high school inspectors.

In addition to the state education association, there will be a meeting of the county superintendents' organization and many other organizations. The latter part of the week, McLean county teachers will come here Wednesday to join the Burling county teachers.

The institute opened this morning with an attendance of 32 teachers. Miss Shipley Fox, state rural school inspector, is giving the opening address, speaking on the three purposes of the institute: 1. To connect more closely home and school. 2. To teach happiness. 3. To boost North Dakota.

At the session today stress was placed upon home economics, history, community civics, literacy, handicraft, health, the course of study, pedagogy, reading and games. The afternoon session was given over to classes and singing. Miss Madge Bunney, county superintendent, presented to the teachers local problems encountered in teaching in the county.

Miss Hazel Pangburn, representative of the Palmer Method of Remedial Massage, and former special penmanship teacher in the Bismarck schools, demonstrated the proper methods of teaching penmanship this morning with a group of junior high school students as models, and in the afternoon took the teachers to Will school, to demonstrate the method used in teaching children in the primary department.

Classes in the regular subjects were an important part of the day's program. Miss Fox conducted the upper classes and Mrs. Homer Gans of Kalmar, conducted the classes in the lower grades.

Kelliher, Minn., Nov. 19.—Myrtle Sanders, 15, broke down at the funeral of her parents, Mr. and Mrs. John Sanders and sweetheart, Oscar Timmy, who with Marshal Wilson of this city, were shot and killed by Leonard Portano Thursday, and had to be taken to a hotel.

LICENSE SALE IS GREATER

Hunting has proved more popular in Burleigh county this year than last. The total number of resident hunting licenses issued by the county auditor now is 1,447, which is 75 more than last year. There were 10 non-resident licenses issued at \$25 each, but out of this class last year. Thus far 11 trapper licenses have been issued at \$2 each, and none was sold last year.

No Set Speeches At Convention

Washington, Nov. 19.—A convention program without a single set speech will make the world power conference, to be held in London next July, one of the unique gatherings of a time. Representatives of every nation in the world interested in the production or utilization of power will meet to discuss the policies and practices of each country.

AMERICAN WOMEN IN THIBET

Mrs. W. J. Morden of Chicago (center) and Mrs. J. B. McCauley of Evanston, Ill. (right), performed the remarkable feat of crossing the high passes of the Himalayas and penetrating into the little-known empire of western Thibet, where white people seldom have set foot. Here they are sitting beside a Tibetan lama.

UNIVERSITY GIVES RADIO INSTRUCTION

Must Prepare for the Future, Says Professor of Electrical Engineering

Grand Forks, N. Dak., Nov. 19.—"Radio communication is rapidly becoming an important factor in our every day life and the universities and colleges are being called upon to offer training in this line," said Prof. David B. Jenkins, professor of electrical engineering at the University of North Dakota.

"The actual handling and operation of the apparatus in the classroom and laboratory is an essential part of such training. In order that the University could offer courses in Radio in the future it has installed a Radio Board Station," Prof. Jenkins said.

"Radio-Broadcasting Station KFJM, though rated as a 1000 watt station, is operating at half strength and has received favorable reports from Pullman, Wash.; Picher, Okla.; New York City; and Toronto, Canada."

James J. Lamb, Radio Engineer of the Electric Construction Co. of Grand Forks, installed the station which has been operating since Oct. 22. Weather reports and the local market are broadcasted each evening, except Sunday, at 7 o'clock. On Wednesday the following program is broadcasted:

7:00 to 7:45 P. M. Story telling hours, Dr. O. G. Libby, professor of American History, at the University.
7:30 to 7:45 P. M. Weekly news review, Mrs. Jane Gaverre.
9:00 to 9:45 P. M. General program.

The committee for programs is composed of J. W. Hilkewen, business manager; Albert H. Yoder, director of the extension division; Dr. Carl H. Fessler, professor of physics; Charles L. Ellis, superintendent of buildings and grounds; Dr. David B. Jenkins, professor of electrical engineering.

LEGLESS, WOULD OPERATE TAXI

"Can a man with artificial limbs operate a taxicab in North Dakota?" was a question submitted to the office of the Attorney-General by A. Greenman of Grand Forks. The answer of John Thorpe, first assistant, was that there is no law barring him from the work for this particular reason.

CAMPAIGN FOR COOLIDGE IS GIVEN START

Reservations Made For Hotel Rooms for Headquarters, in G. O. P. Campaign

Chicago, Nov. 19.—Although the Republican national committee will not formally decide on a convention city until next month tentative hotel reservations for Coolidge headquarters have already been made, and a mid-western Coolidge headquarters was opened today by friends of the president at the same hotel.

New Bank Is Nearly Completed

Minot, Nov. 19.—Completion of the new \$50,000 Union National Bank building is expected about February 1, 1924. The new building replaces the one which was destroyed by fire on last July 8. The building will be one of the few structures in the state devoted exclusively to banking purposes. The structure throughout is strongly built and is fireproof. A 20-foot ceiling is provided in the spacious main banking room.

THE WEATHER

For twenty-four hours ending at noon.
Temperature at 7 a. m. 29.
Temperature at noon 36.
Highest yesterday 55.
Lowest yesterday 32.
Lowest last night 29.
Highest wind velocity 14.
Weather Forecast
For Bismarck and vicinity: Some what unsettled tonight and Tuesday. Colder Tuesday.
For North Dakota: Somewhat unsettled tonight and Tuesday. Warmer tonight southeast portion. Colder Tuesday.

Weather Conditions
The weather is generally fair in all sections, except for a few light scattered showers in the extreme Northwest and in the Great Lakes region. High pressure, accompanied by cool weather, prevails over the middle Rocky Mountain region while low pressure and warmer weather prevails over the northern Rocky Mountain region.

GRAIN ELEVATOR BURNED
Dickinson, Nov. 19.—Fire of undetermined origin totally destroyed the elevator and warehouse of the Stoffen Grain company at Belield last Tuesday evening. Farm machinery stored in the warehouse adjoining was removed before the building caught fire.

Speaks at Banquet
Governor R. A. Nestos will speak at the banquet of alumni of the University of Wisconsin, to be held at 6:30 p. m. Tuesday Nov. 20, at the Gardner Hotel Fargo.

STORM SWEEPS OVER ISLANDS; DAMAGE GREAT

Boats Used for Transportation in Part of Manila After Great Typhoon

TWO ISLANDS COVERED

Trail and Telegraph Communication Entirely Suspended to Luzon, Visayas

Manila, P. I., Nov. 19.—(By the A. P.)—A typhoon from the Pacific ocean has swept over Luzon and Visayas islands. Rail and telegraph communication has been entirely suspended. Manila is partially under water as a result of the torrential downpour, boats replacing motor cars in several of the streets. The storm also caused considerable damage to crops. The rainfall during the past 48 hours has totaled more than 16 inches. The downpour was accompanied by a high wind. The storm had abated tonight, telegraph wires were torn down by the wind and rain and roads washed out in many sections of the island.

A number of the ships which were scheduled to sail were kept in port by the storm.

BIG BUSINESS TO GET SQUARE DEAL, HE SAYS

Magnus Johnson Tells Audience He Will Not Persecute Any Business

Chicago, Nov. 19.—Senator Magnus Johnson, farmer-laborite of Minnesota, after declaring in two addresses here yesterday that he was going to the capital prepared to fight that he would insist on reasonable laws affecting business and a square deal for big business was to leave today for Washington.

"I will not stand for any laws that will be unreasonable to business of this country," he said in addressing the Chicago Federation of Labor. "Big business will get a square deal," he said.

He hinted at a peace plan of his own after declaring that civilization rests on religion and urged his hearers to observe the golden rule during his speech.

"I am not for the League of Nations or the World Court," he said, "but I am for something that we can send men or women to Europe and tell them over there that we want peace."

He predicted that President Coolidge would be elected by the Republicans and that the Democrats would nominate another standpater. He said he once considered Senator Hiram Johnson a good progressive, but "I do not now," he declared.

ORGANIZATIONS GET BUSY IN LIGNITE FIGHT

Minnesota and Dakota Groups Are Uniting in Effort Against Rail Boost

Minot, Nov. 19.—Newspapers, civic associations and other organizations throughout North Dakota, Minnesota and South Dakota, are joining in unanimous opposition to the new lignite coal freight rate which has been filed with the North Dakota Railroad Commission and the Interstate Commerce Commission. It was reported by James S. Millroy, state secretary, in Minot. Minnesota consumers would suffer if the proposed tariff is put into effect, the warehouse commission declared in filing against the increase. The fight against the tariff is gradually being taken from hands of operators association and is being assumed by organizations representing the coal consumers of Northwestern states, was the assertion by operators.

"There is such widespread protestation against the action of the railroads in seeking coal rate increases that it seems possible that officials of Minnesota and North and South Dakota will act in accord if the pressure now being brought to bear against the railroads is not sufficient to prevent the increase in tariff," it was said by officials today.

SENATE PROBE OF FORBES IS NEARING END

Committee to go Into Original Plan of Obtaining Ideas For Legislation

NEW CHARGE MADE

Mortimer, Star Witness, Claims That Forbes Arranged for Contract for Firm

Washington, Nov. 19.—A charge that the Veterans Bureau kidnaped Charles E. Mortimer, a world war veteran, from an insane asylum in the state of Washington and took him to a hospital in Pennsylvania was made today before the Veterans Bureau investigating committee by Rep. Johnson. He said officials of the Bureau acted in violation of a restraining order of the courts and that he had been asked by Director Frank T. Rhines to present the case so that the wrong done in this case can be righted.

Washington, Nov. 19.—Senate investigation of the Veterans Bureau entered today on its final phase. With the testimony of Charles R. Forbes, the former director, and the re-examination of Elias H. Mortimer of Philadelphia, his principle accuser behind the committee of inquiry was determined to resume the constructive side of its work, gathering of information which will be of aid in formulating relief legislation for Congress.

One or two more witnesses in behalf of Forbes remain to be heard, but Chairman Reed and his colleagues are hopeful that the testimony relating to the domestic differences of the principals in the inquiry have been concluded. Only one outstanding new charge was presented by Mortimer when he took the stand Saturday night for further examination by counsel for the committee. He testified that he, Forbes, Charles F. Kramer, former general counsel of the bureau who committed suicide last March, and J. W. Thompson, senior member of the Chicago contracting firm of Thompson and Black, entered into an agreement whereby the Pontiac Construction Company of Detroit, Mich., a subsidiary of the Thompson and Black Company, was to get the contract for construction of the foundation of the Northampton, Massachusetts, Veterans Hospital.

The Scotch Generals
Elias H. Mortimer, star witness against Charles R. Forbes, took the stand again Saturday before the senate veterans committee to renew his charges and to present new ones. Chairman Reed announced that James S. Esby-Smith, counsel for Forbes, will not be permitted to cross examine Mortimer, but as has been the custom the chairman will put to the witness questions prepared by Esby-Smith.

Examined by John F. O'Ryan, general counsel for the committee, Mortimer said he had been able to locate since he last appeared on the stand a number of letters and telegrams relating to charges in his previous testimony. One of the first of the papers read was a letter addressed to "My Dear Katherine and Mort" which Mortimer said was from J. W. Jackson and which referred to an auto which Mortimer said had been promised to Mrs. Mortimer in the strength of promises of government work made by Forbes to Thompson. He said that the car had never been delivered.

"All Present" Report
O'Ryan then put into the record a number of telegrams between James W. Black of the Thompson Black company, and Mortimer, for the purpose, it was explained, of showing that Mortimer did have business relations with Black.

One of the telegrams was dated at Seattle on July 4, 1922, signed "James W. Black" and addressed to Mortimer at San Francisco. "Will have all of the Scotch generals when you arrive here with General Haig in command," said the telegram, there was also inquiry as to when Mortimer would reach Seattle.

At that time Mortimer was in San Francisco with Forbes and his official party and Mortimer said the arrangement was to meet Black at Seattle, which they did. "Were all the Scotch generals there?" asked Senator Reed. "Yes," responded Mortimer.

PIONEER RAILWAY BUILDER DIES

Dickinson, Nov. 19.—After an illness covering a period of nearly ten months, John Hugh Daly, for 45 years a resident of western North Dakota and one of the most widely known among pioneer railway builders, died at his home last Sunday. The direct cause of death was given as enlargement of the heart. Funeral services were held Wednesday at St. Patrick's Catholic church. Rev. Fr. Michael Schmitt officiating.

THOUSANDS OF TURKEYS WILL BE SENT FROM N. D. TO EASTERN TABLES

Western North Dakota Production Estimated to Increase 50 Per Cent Over Last Year—This Section of State Winning Wide Reputation For Production of Birds for Eastern Markets

Western North Dakota, steadily winning fame as turkey producing territory, will market 50 per cent more turkeys this year than last year, according to one buyer of turkeys who is familiar with conditions in the territory and has been active in promoting turkey raising in the last few years. Thousands of North Dakota turkeys will find their way to the tables of easterners for Thanksgiving and Christmas this year. At the present time conditions with respect to marketing turkeys is not entirely satisfactory, however. The turkey is a delicate bird, in spite of his enormous appetite and his size. The weather this fall has been unusually mild. The turkeys have eaten a lot, but because of the warm weather have continued to roam around. As a turkey expert expressed it, as long as a turkey continues to roam around he will not get fat, but with a few days of cold weather he will sit up on a fence and pick up weight very fast. The result is that turkeys, from a market standpoint, are said not to be matured at this time. The weather, being warm, also has been unsatisfactory for shipping to the eastern markets. The price also has broken 7 to 8 cents since last Saturday.

One student of the turkey market and conditions declared that there should be no attempt to market turkeys for the eastern market until between December 5 and 12. It is too late to market them for the Thanksgiving trade and the market is not good anyway, he said, while there is every indication that it will be better later on. Colder weather will add enough to the weight and quality of the turkeys so that the seller will gain even though the price should fall, he said, and he expects the price to be firmer. It has been variously estimated that from \$150,000 to \$200,000 worth of turkeys will be marketed from the southwestern section of the state this fall. O. A. Barton, poultry specialist at the North Dakota Agricultural College, in a statement sent from his office said: Complaints have reached Mr. Barton's office that unscrupulous buyers are buying turkeys for considerable less than the market price. These dealers escape the poultry raiser into thinking his hens are diseased and that it is best to get rid of them at whatever price he can secure. "If the birds really were diseased no poultry dealer would take them at any price," declares Mr. Barton. "I would advise farmers and poultry raisers to sell to no agent who wants to buy diseased birds."

FLOAT SHOWS N. D. PROGRESS

A splendid float showing North Dakota's agricultural progress was entered in a big parade in Long Beach, California, November 10, according to word received here. The float was prepared by former North Dakotans in that city and agricultural products were furnished by the state of Washington. J. M. DeWine, floatman representing Indians, Illinois, Iowa and numerous other states were entered.

EXHIBIT IS SHOWN HERE

Health Exhibit Placed at High School, Open to Public

A health exhibit from the Elizabeth McCormick Memorial Fund, with Miss Martha Peters of Chicago in charge, will be shown at the high school all this week and is open to the public. The health exhibit consists of posters, placards, models of articles of diet for the various years of a child's life and scores of similar exhibits. It is said to be the finest exhibit of this sort in the country, and is being shown for the first time in North Dakota. It has been shown at numerous institutes and institutions in the state under the auspices of the state superintendent of public instruction's office.

LIMOUSINE-TOURING CAR LATEST IN AUTOS

Washington, Nov. 19.—An interesting new automobile of Belgian make, which may be transformed from a limousine to a touring car in a few minutes is described in a report received by the Department of Commerce. The body consists largely of glass panels which may be folded back within the sides, and the roof can be folded back just as the ordinary touring car top.

The lower rear portion of the tonneau is so arranged that it can be opened like the lid of a chest, and the combined back curtain and side glasses turned down out of the way.

One hundred and sixty-one American girls gave their lives in the World War.

INJURY SUSTAINED PLAYING BASEBALL HELD NOT IN LINE OF EMPLOYMENT

An injury sustained by an employee of an elevator company while playing baseball cannot be considered a just case for award of compensation of the Workmen's Compensation Bureau, the commissioners have decided. The digest of the case, as given by Commissioner Wenzell, follows:

Employee of elevator company, which was insured under the compensation act, left the elevator about 7 p. m. to see one of the directors. On the way he stopped at the practice grounds of the baseball team, participating to some slight extent in reaching for a baseball above his head he stepped on another ball, was taining quite an injury. Claim for compensation was disallowed for the reason that injury was not sustained in the course of employment. An unusual case in which compensation was allowed follows: Employee of county engaged in road work, while around the cook car at the noon hour was hit by a gasoline tank which was thrown out of car after an explosion, causing severe burns. The camp was some 14 miles from town. Held that the getting of the meal by the men engaged in the road work was incidental to and part of the general work, and compensation allowed.

An employee, a dishwasher, was working for a restaurant owner who had failed to come under the compensation act. She was sent to a city park to wash dishes after a meal was served there by employer. After completing this work, and while waiting for an automobile to take her back to the restaurant, she got into a swing, and while swinging rather vigorously she fell out injuring her ankle. An "elective" claim was filed against the employer, which was disallowed for the reason that the injury was not in the course of the employment.

AGREEMENT IS SUBJECTED TO GOVERNMENTS

Strong Protest to be Sent to Germany of Lack of Accord For Military Body

IS ONLY TEMPORARY

Feeling Is That Break May Come Later Between Britain and France

Paris, Nov. 19.—(By the Associated Press)—The French cabinet called to consider the agreement in principle reached today by the Allied Council of Ambassadors regarding the attitude to be adopted toward Germany issued a laconic communique at the close of its session this afternoon to the effect that "the cabinet unanimously approved the attitude taken by M. Poincare in the negotiations."

Paris, Nov. 19.—(By the A. P.)—An agreement in principle was reached by the representatives of the allies assembled in the council of ambassadors here today and a break between France and Great Britain on the question of the attitude to be adopted toward Germany was averted, at least temporarily.

It was announced after the conference that the ambassadors had agreed in principle on the measures to be taken toward resumption of allied military control in Germany. The agreement was subject to the approval of the French and Belgian cabinets at meetings called for the early afternoon.

The French cabinet was expected to approve the formula decided on by the ambassadors. The Belgian ambassador communicated with Brussels and was understood to be asking for his government's decision. The understanding was that the agreement called for sending Germany a protest against the lack of facilities she was furnishing for the work of the military control mission but without mention of what action the allies might take in case Germany failed to give the required assurances of protection for the mission.

The French are understood to have made reservations on the question of penalties so that if it should prove necessary they would be free to take separate action if they so desired.

Not a Good Test

The feeling in some allied quarters was that no entirely satisfactory test for the note to Germany had been adopted. The decisions reached being considered as a make-shift taken to prevent the breaking up of the entente and to give the allies more time to find a solution.

The impression in allied political circles is that the entente is saved for the moment but is in a precarious condition at the mercy of the first incident in Germany hostile to the mission of control. France, it is believed, will not hesitate to take action in such a case, overriding all allied objections. Consequently it is feared the equivocal situation of the allies has not been definitely remedied and that the crisis which might lead to a break has only been postponed.

The result is regarded as a diplomatic success for Great Britain but with such strain to it that its reception in London is regarded as doubtful.

Need Approval

Lord Crewe communicated with the London government by telephone immediately after his return to the British embassy and this with the similar action of the Belgian envoy with Brussels was taken as indicating that all the governments still had to approve the decision before it became final.

If the approval is accorded the ambassadors planned to meet again at 6 o'clock and put the finishing touches on the text of the communication to Germany and forward it at once to Berlin.

The council of ambassadors convened at 6 p. m. with all members present but decided to postpone their meeting until tomorrow. The postponement, it was understood, was taken because the British and Belgian ambassadors had received no word.

SOUNDS LIKE A HUNTER'S STORY

Geese and ducks have been seen heading north in the last few days. Several hunters today reported that on Saturday they saw large flocks flying in a northerly direction adding that the weather was either continued mild weather or at least an absence of very severe, stormy weather.

BUILDING AEROPLANE

Carpenter W. H. Roberts is constructing a large two passenger aeroplane that he expects to have ready for flight in the early spring. He is installing in the machine a 50 horsepower LaRome engine, one that the government used in the war.

ENTENTE BREAK IS HELD AVERTED

TEACHERS TO CAPTURE CITY ENTIRE WEEK

Burleigh County Institute Opens Today as Forerunner of Big Event

H. S. TEACHERS HERE

Meeting Brings Teachers in High Schools From 6 Counties

Bismarck will capitulate to school teachers of the state this week. As a forerunner of the North Dakota Education Association convention, which will be held here November 21, 22 and 23, the Burleigh county teachers' institute opened here today. At the same time there opened in the high school a high school conference with teachers from Burleigh, Morton, McLean, Emmons, Kidder and Grant present to discuss problems for three days with state high school inspectors.

In addition to the state education association, there will be a meeting of the county superintendents' organization and many other organizations. The latter part of the week, McLean county teachers will come here Wednesday to join the Burleigh county teachers.

The institute opened this morning with an attendance of 92 teachers. Miss Shirley Fox, state rural school inspector, in giving the opening address spoke on the three purposes of the institute: 1. To connect more closely home and school. 2. To teach happiness. 3. To boost North Dakota.

At the session today stress was placed upon home economics, history, community civics, literacy, handicraft, health, the course of study, pedagogy, reading and games. The afternoon session was given over to classes and singing. Miss Madge Runey, county superintendent, presented to the teachers local problems encountered in teaching in the county.

Miss Hazel Pangburn, representative of the Palmer Method of Penmanship, and former special penmanship teacher in the Bismarck schools, demonstrated the proper methods of teaching penmanship this morning with a group of junior high school students as models, and in the afternoon took the teachers to Will school, to demonstrate the method used in teaching children in the primary department.

Classes in the regular subjects were an important part of the day's program. Miss Fox conducted the upper classes and Mrs. Homer Ganz of Kulm, conducted the classes in the lower grades.

GIRL BREAKS DOWN AT RITES

Kellier, Minn., Nov. 19.—Myrtle Sanders, 15, broke down at the funeral of her sweetheart, Oscar Timmy, who with Marshal Wilson of this city, were shot and killed by Leonard Portano Thursday, and had to be taken to a hotel.

LICENSE SALE IS GREATER

Hunting has proved more popular in Burleigh county this year than last. The total number of resident hunting licenses issued by the county auditor now is 1,447, which is more than last year. There were 10 non-resident licenses issued at \$25 each, and six of this class last year. Thus far 11 trappers' licenses have been issued at \$2 each and none was sold last year.

No Set Speeches At Convention

Washington, Nov. 19.—A convention program without a single set speech will make the world power conference, to be held in London next July, one of the unique gatherings of all time. Representatives of every nation in the world interested in the production or utilization of power will meet to discuss the policies and practices of each country.

Possibly the majority of the bureau incident to days of long and technical speeches, the directing committees have promulgated the no-speech rule and instead, the many papers to be presented will be submitted to the delegates beforehand and the sessions, continuing two and three days, will be devoted to informal discussions of the problems presented.

NEW RESIDENCE DISTRICT.
Dickinson, Nov. 19.—Directors of the Mercer County Fair association will plat the present fair grounds, place the property on the market as a residence section addition to the town of Baulah and are closing a deal for the purchase of several hundred acres along the Knife river. The new location of the fair grounds will be made into a park, being partially wooded.

AMERICAN WOMEN IN THIBET

Mrs. W. J. Morden of Chicago (center) and Mrs. J. B. McCauley of Evanston, Ill. (right), performed the remarkable feat of crossing the high passes of the Himalayas and penetrating into the little-known empire of western Thibet, where white people seldom have set foot. Here they are sitting beside a Thibetan lama.

UNIVERSITY GIVES RADIO INSTRUCTION

Must Prepare for the Future, Says Professor of Electrical Engineering

Grand Forks, N. Dak., Nov. 19.—"Radio communication is rapidly becoming an important factor in our every day life and the universities and colleges are being called upon to offer training in this line," said Prof. David R. Jenkins, professor of electrical engineering at the University of North Dakota.

"The actual handling and operation of the apparatus in the class room and laboratory is an essential part of such training. In order that the University could offer courses in Radio in the future it has installed a Radio Board Station," Prof. Jenkins said.

"Radio Broadcasting Station KFJM, though rated as a 1000 watt station, is operating at half strength and has received favorable reports from Pullman, Wash.; Picher, Okla.; New York City; and Toronto, Canada."

James J. Lamb, Radio Engineer of the Electrical Construction Co. of Grand Forks installed the station which has been operating since Oct. 22. Weather reports and the local market are broadcasted each evening, except Sunday, at 7 o'clock. On Wednesday the following program is broadcasted:

7:00 to 7:45 P. M. Story telling hours, Dr. O. G. Libby, professor of American History, at the University.
7:30 to 7:45 P. M. Weekly news review, Mrs. Jane Gaverre.
9:00 to 9:45 P. M. General program.

"The committee for programs is composed of J. W. Hilkerson, business manager; Albert H. Yoder, director of the extension division; Dr. Carl H. Fussler, professor of physics; Charles L. Ellis, superintendent of buildings and grounds; Dr. David R. Jenkins, professor of electrical engineering.

"The station is located in the Commons building. This room has been rendered echo-proof by means of a one half inch layer of soft fiber board, covered with canvas, on the floor while the ceiling and walls are draped with loosely hung folds of dunlap. Announcements and program numbers are transmitted by wire from the studio to the radio room located in the Mechanical and Electrical building. The antenna is supported by wooden masts on the roof of the building and is of the inverted "L" type, the horizontal part consisting of six wires. The counterpoise of ten wires is placed 45 feet below the antenna.

Prof. Jenkins outlines the following aims of the University Broadcasting Station:

1. To do what we can through study and experiment, to improve and develop the art of radio.
2. To aid in bringing about the true value of broadcasting.
3. To promote fellowship, comradeship between the University and our unseen audience spread all over the state of North Dakota.

"The station is of service to those people of this state who, during our long winter months, are cut off from association with the rest of the world; to inform, to instruct, to entertain."

The average span of life has lengthened more than four years since 1910.

CAMPAIGN FOR COOLIDGE IS GIVEN START

Reservations Made For Hotel Rooms for Headquarters, in G. O. P. Campaign

Chicago, Nov. 19.—Although the Republican national committee will not formally decide on a convention city until next month, tentative hotel reservations for Coolidge headquarters have already been made and a mid-western Coolidge headquarters was opened today by friends of the president at the same hotel.

New Bank Is Nearly Completed

Minot, Nov. 19.—Completion of the new \$50,000 Union National Bank building is expected about February 1, 1924. The new building replaces the one which was destroyed by fire on last July 3. The building will be one of the few structures in the state devoted exclusively to banking purposes. The structure throughout is strongly built and is fireproof. A 20-foot ceiling is provided in the spacious main banking room.

THE WEATHER

For twenty-four hours ending at noon.
Temperature at 7 a. m. 29.
Temperature at noon 36.
Highest yesterday 50.
Lowest yesterday 32.
Lowest last night 29.
Precipitation 0.
Highest wind velocity 14.

Weather Forecast. Some what unsettled tonight and Tuesday. Colder Tuesday.

For North Dakota: Somewhat unsettled tonight and Tuesday. Warmer tonight southeast portion. Colder Tuesday.

Weather Conditions. The weather is generally fair in all sections, except for a few light scattered showers in the extreme Northwest and in the Great Lakes region. High pressure, accompanied by cool weather, prevails over the middle Rocky Mountain region while low pressure and warmer weather prevails over the northern Rocky Mountain region.

Orris W. Roberts, Meteorologist.

GRAIN ELEVATOR BURNED.
Dickinson, Nov. 19.—Fire of undetermined origin totally destroyed the elevator and warehouse of the Steffen Grain company at Belield last Tuesday evening. Farm machinery stored in the warehouse adjoining was removed before the building caught fire.

STORM SWEEPS OVER ISLANDS DAMAGE GREAT

Boats Used for Transportation in Part of Manila After Great Typhoon

TWO ISLANDS COVERED

Trail and Telegraph Communication Entirely Suspended to Luzon, Visayas

Manila, P. I., Nov. 19.—(By the A. P.)—A typhoon from the Pacific ocean has swept over Luzon and Visayas islands. Rail and telegraph communication has been entirely suspended.

Manila is partially under water as a result of the torrential downpour. The rain during the past 48 hours has totaled more than 16 inches. The downpour was accompanied by a high wind. The storm had abated tonight, telegraph wires were torn down by the wind and rain and roads washed out in many sections of the island.

A number of the ships which were scheduled to sail were kept in port by the storm.

BIG BUSINESS TO GET SQUARE DEAL, HE SAYS

Magnus Johnson Tells Audience He Will Not Persecute Any Business

Chicago, Nov. 19.—Senator Magnus Johnson, former laborer of Minnesota, after declaring in two addresses here yesterday that he was going to the capital prepared to fight that he would insist on reasonable laws affecting business and a square deal for big business was to leave today for Washington.

"I will not stand for any laws that will be unreasonable to business of this country," he said in addressing the Chicago Federation of Labor. "Big business will get a square deal," he said.

He hinted at a peace plan of his own after declaring that civilization rests on religion and urged his hearers to observe the golden rule during his speech.

"I am not for the League of Nations or the World Court," he said, "but I am for something that we can send men or women to Europe and tell them over there that we want peace."

He predicted that President Coolidge would be nominated by the Republicans and that the Democrats would nominate another standpatter. He said he once considered Senator Hiram Johnson a good progressive, but "I do not now," he declared.

ORGANIZATIONS GET BUSY IN LIGNITE FIGHT

Minnesota and Dakota Groups Are Uniting in Effort Against Rail Boost

Minot, Nov. 19.—Newspapers, civic associations and other organizations throughout North Dakota, Minnesota and South Dakota are joining in unanimous opposition to the new lignite coal freight rate which has been filed with the North Dakota Railroad Commission and the Interstate Commerce Commission. It was reported by James S. Milloy, state secretary in Minot, Minnesota, consumers would suffer if the proposed tariff is put into effect, the warehouse commission declared in filing against the increase. That the fight against the tariff is gradually being taken from hands of operators association and is being assumed by organizations representing the coal consumers of Northwestern states, was the assertion by operators.

"There is such widespread protestation against the action of the railroads in seeking coal rate increases that it seems possible that officials of Minnesota and North and South Dakota will act in accord if the present now being brought to bear against the railroads is not sufficient to prevent the increase in tariff, it was said by officials today.

SENATE PROBE OF FORBES IS NEARING END

Committee to go Into Original Plan of Obtaining Ideas For Legislation

NEW CHARGE MADE

Mortimer, Star Witness, Claims That Forbes Arranged for Contract for Firm

Washington, Nov. 19.—A charge that the Veterans Bureau kidnapped Charles Kasavoge, a world war veteran, from an insane asylum in the state of Washington and took him to a hospital in Pennsylvania was made today before the Veterans Bureau investigating committee by Rep. Johnson. He said officials of the Bureau acted in violation of a restraining order of the courts and that he had been asked by Director Frank T. Hines to present the case "so that the wrong done in this case can be righted."

Washington, Nov. 19.—Senate investigation of the Veterans Bureau entered today on its final phase. With the testimony of Charles R. Forbes, the former director, and the re-examination of Elias H. Mortimer of Philadelphia, his principle accuser behind the committee of inquiry has determined to resume the constructive side of its work, gathering of information which will be of aid in formulating relief legislation for Congress.

One or two more witnesses in behalf of Forbes remain to be heard, but Chairman Reed and his colleagues are hopeful that the testimony relating to the domestic differences of the principals in the inquiry have been concluded.

Only one outstanding new charge was presented by Mortimer when he resumed the stand Saturday night for further examination by counsel for the committee. He testified that he, Forbes, Charles F. Kramer, former general counsel of the bureau who committed suicide last March, and J. W. Thompson, senior member of the Chicago contracting firm of Thompson and Black, entered into an agreement whereby the Pontiac Construction Company of Detroit, Mich., a subsidiary of the Thompson and Black Company, was to get the contract for construction of the foundation of the Northampton, Massachusetts, Veterans Hospital.

The Scotch Generals
Elias H. Mortimer, star witness against Charles R. Forbes, took the stand again Saturday before the senate veterans committee to renew his charges and to present new ones. Chairman Reed announced that James S. Easby-Smith, counsel for Forbes, will not be permitted to cross examine Mortimer, but as has been the custom the chairman will put to the witness questions prepared by Easby-Smith.

Examined by John F. O'Ryan, general counsel for the committee, Mortimer said he had been able to locate since he last appeared on the stand a number of letters and telegrams relating to charges in his previous testimony.

One of the first of the papers read was a letter addressed to "My Dear Katherine and Mort" which Mortimer said was from J. W. Jackson and which referred to an auto which Mortimer said had been promised to Mrs. Mortimer on the strength of promises of government work made by Forbes. He said that the car had never been delivered.

"All Present" Report
O'Ryan then put into the record a number of telegrams between James W. Black of the Thompson Black Company, and Mortimer, for the purpose, it was explained, of showing that Mortimer did have business relations with Black.

One of the telegrams was dated at Seattle on July 4, 1922, signed "James W. Black," and addressed to Mortimer at San Francisco.

"Will have all of the Scotch generals when you arrive here with General Haig in command," said the telegram, there was also inquiry as to when Mortimer would reach Seattle.

At that time Mortimer was in San Francisco with Forbes and his official party and Mortimer said the arrangement was to meet Black at Seattle, which they did.

"Were all the Scotch generals there?" asked Senator Reed.

"Yes," responded Mortimer.

THOUSANDS OF TURKEYS WILL BE SENT FROM N. D. TO EASTERN TABLES

Western North Dakota Production Estimated to Increase 50 Per Cent Over Last Year—This Section of State Winning Wide Reputation For Production of Birds for Eastern Markets

Western North Dakota, steadily winning fame as a turkey producing territory, will market 50 per cent more turkeys this year than last year, according to one buyer of turkeys who is familiar with conditions in the territory and has been active in promoting turkey raising in the last few years. Thousands of North Dakota turkeys will find their way to the tables of easterners for Thanksgiving and Christmas this year.

At the present time conditions with respect to marketing turkeys is not entirely satisfactory, however. The turkey is a delicate bird, in spite of his enormous appetite and his size. The weather this fall has been unusually mild. The turkeys have eaten a lot, but because of the warm weather have continued to roam around. As a turkey expert expressed it, as long as a turkey continues to roam around he will not get fat, but with a few days of cold weather he will sit up on a fence and pick up weight very fast. The result is that turkeys, from a market standpoint, are said not to be matured at this time. The weather, being warm, also has been unsatisfactory for shipping to the eastern markets. The price also has broken 7 to 8 cents since last Saturday.

One student of the turkey market and conditions declared that there should be no attempt to market turkeys for the eastern market until between December 5 and 12. It is too late to market them for the Thanksgiving trade and the market is not good anyway, he said, while there is every indication that it will be better later on. Colder weather will add enough to the weight and quality of the turkeys so that the seller will gain even though the price should fall, he said, and he expects the price to be firmer.

It has been variously estimated that from \$150,000 to \$200,000 worth of turkeys will be marketed from the southwestern section of the state this fall.

O. A. Barton, poultry specialist at the North Dakota Agricultural College, in a statement sent from his office said:

Complaints have reached Mr. Barton's office that unscrupulous dealers are buying turkeys for considerable less than the market price. These dealers scare the poultry raiser into thinking his hens are diseased and that it is best to get rid of them at whatever price he can secure.

"If the birds really were diseased no poultry dealer would take them at any price," declares Mr. Barton. "I would advise farmers and poultry raisers to sell to no agent who wants to buy diseased birds."

FLOAT SHOWS N. D. PROGRESS

A splendid float, showing North Dakota's agricultural products was entered in a big parade in Long Beach, California, November 10, according to word received here. The float was prepared by former North Dakotans in that city and agricultural products were furnished by Commissioner of Immigration J. M. Deane. Floats representing Indians, Illinois, Iowa and numerous other states were entered.

EXHIBIT IS SHOWN HERE

Health Exhibit Placed at High School, Open to Public

A health exhibit from the Elizabeth McCormick Memorial Fund, with Miss Martha Peters of Chicago in charge, will be shown at the high school all this week, and is open to the public. The health exhibit consists of posters, placards, models of articles of diet for the various years of a child's life and scores of similar exhibits. It is said to be the finest exhibit of this sort in the country, and is being shown for the first time in North Dakota. It has been shown at numerous institutes and institutions in the state under the auspices of the state superintendent of public instruction's office.

LIMOUSINE-TOURING CAR LATEST IN AUTOS

Washington, Nov. 19.—An interesting new automobile of Belgian make, which may be transformed from a limousine to a touring car in a few minutes, is described in a report received by the Department of Commerce. The body consists largely of glass panels which may be folded back within the sides, and the roof can be folded back just as the ordinary touring car top.

The lower rear portion of the tonneau is so arranged that it can be opened like the lid of a chest, and the combined back curtain and side glasses turned down out of the way.

One hundred and sixty-one American girls gave their lives in the World War.

INJURY SUSTAINED PLAYING BASEBALL HELD 'NOT IN LINE OF EMPLOYMENT'

An injury sustained by an employee of an elevator company while playing baseball cannot be considered a just case for award of compensation of the Workmen's Compensation Bureau, the commissioners have decided. The digest of the case, as given by Commissioner Wenzell, follows:

Employee of elevator company, which was insured under the compensation act, left the elevator about 7 p. m. to see one of the directors. On the way he stopped at the practice grounds of the baseball team, participating to some slight extent in reaching for a baseball above his head he stepped on another ball, sustaining quite an injury. Claim for compensation was disallowed for the reason that injury was not sustained in the course of employment.

An unusual case in which compensation was allowed follows: Employee of county engaged in road work, while around the cook car at the noon hour, was hit by a gasoline tank which was thrown out of car after an explosion, causing severe burns. The camp was some 14 miles from town. Held that the getting of the meal by the men engaged in the road work was incidental to and part of the general work, and compensation allowed.

An employee, a dishwasher, was working for a restaurant owner who had failed to come under the compensation act. She was sent to a city park to wash dishes after a meal was served there by employer. After completing this work, and while waiting for an automobile to take employees back to the restaurant, she got into a swing, and while swinging rather vigorously she fell, cutting her ankle. An "elective" claim was filed against the employer, which was disallowed for the reason that the injury was not in the course of the employment.

PIONEER RAILWAY BUILDER DIES

Dickinson, Nov. 19.—After an illness covering a period of nearly ten months, John Hugh Daly, for 42 years a resident of western North Dakota and one of the most widely known among pioneer railway builders, died at his home last Sunday. The direct cause of death was given as an enlargement of the heart. Funeral services were held Wednesday from St. Patrick's Catholic church. Rev. Fr. Michael Schmitt officiating.

AGREEMENT IS SUBJECTED TO GOVERNMENTS

Strong Protest to be Sent to Germany of Lack of Accord For Military Body

IS ONLY TEMPORARY

Feeling Is That Break May Come Later Between Britain and France

Make Statement
Paris, Nov. 19.—(By the Associated Press)—The French cabinet called to consider the agreement in principle reached today by the Allied Council of Ambassadors regarding the attitude to be adopted toward Germany issued a laconic communique at the close of its session this afternoon to the effect that "the cabinet unanimously approved the attitude taken by M. Poincare in the negotiations."

Paris, Nov. 19.—(By the A. P.)—An agreement in principle was reached by the representatives of the allies assembled in the council of ambassadors here today and a break between France and Great Britain on the question of the attitude to be adopted toward Germany was averted, at least temporarily.

It was announced after the conference that the ambassadors had agreed in principle on the measures to be taken toward resumption of allied military control in Germany. The agreement was subject to the approval of the French and Belgian cabinets at meetings called for the early afternoon.

The French cabinet was expected to approve the formula decided on by the ambassadors.

The Belgian ambassador communicated with Brussels and was understood to be asking for his government's decision.

The understanding was that the agreement called for sending Germany a protest against the lack of facilities she was furnishing for the work of the military control mission but without mention of what action the allies might take in case Germany failed to give the required assurances of protection for the mission.

The French are understood to have made reservations on the question of penalties so that if it should prove necessary they would be free to take separate action if they so decided.

MELLON CASH PLAN FAVORED BY COOLIDGE

His Advisors Think He May Recommend It in Message to Congress

CONSULTS WITH LODGE

Taxation Is Principle Subject For Cloak Room Discussion

Washington, Nov. 19.—President Coolidge is strongly inclined toward the Mellon cash redemption program and is expected by some of his advisors to endorse it in his message to congress.

Such an endorsement in the opinion of administration officials would be sufficient to sweep aside some opposition as has been among some republican leaders to a revision at the coming session.

With the gathering here of senators and representatives of the majority of the party taxation has become one of the principle subjects of cloak room discussion.

Announcements of the president's position is expected to await his message to congress. He had a long talk with Senator Lodge of Massachusetts, the republican senate leader, and is understood to have presented to him the argument that had been made to the White House in favor of the Mellon program.

FOUR INJURED IN AUTO CRASH

Norwood, Minn., Nov. 19.—Four persons were slightly hurt but three others escaped injury when their automobile was hit by a passenger train at a grade crossing here.

SOUNDS LIKE A HUNTER'S STORY

Geese and ducks have been seen heading north in the last few days. Several hunters today reported that on Saturday they saw large flocks flying in a northerly direction, adding that this surely meant either continued mild weather or at least an absence of very severe, stormy weather.

BUILDING AIRPLANE

Carson, Nov. 19.—Clarence Roberts, Thain township, is constructing a large two passenger airplane that he expects to have ready for flight in the early spring. He is installing in the machine a 50 horsepower Anson engine, one that the government used in the war.

AUTO BODY TO ASK REMOVAL OF WAR TAX

Secretary Mellon's Recommendation for the Repeal Is Being Cited By It

A TRANSPORTATION TAX

That the war excise tax on motor vehicles, repair parts, tires and accessories is a war tax on transportation and should be removed along with the tax on telegrams, telephones and leased wires which Secretary Mellon of the U. S. Treasury recommends for repeal as being "the last of the transportation taxes established during the war," is the substance of the comment of Maj. Roy P. Britton, chairman of the Legislative Board of the American Automobile Association on the open letter of the Secretary of the Treasury to the Hon. William E. Green, Acting Chairman, Committee on Ways and Means of the U. S. House of Representatives.

"From a purely technical standpoint and a literal definition of the word 'transportation' as expressed in the acts of Congress, the secretary of the treasury of course is entirely correct when he stated that the repeal of the tax on telegrams, telephones and leased wires would mean the repeal of the last of the transportation taxes established during the war," explained Major Britton. "However, when we look upon the broader aspect of transportation which must include highways in this motor age, the excise tax on motor vehicles, repair parts and accessories is nothing more than a penalty against individual transportation. To gauge the necessity of this individual transportation one has only to visualize the sudden removal of the motor vehicle from the transportation service of the Nation.

"The excise tax on motor vehicles, repair parts, tires and accessories is paid by the user of the highway just as certainly as the railroad war tax was paid by the railroad users or as the war tax on telegrams and telephones is now paid by their users. The motor tax should be removed for the same sound reasons which justified the removal of the tax on rail transportation and warrant the Secretary of the Treasury in recommending the removal of the tax on telegrams and telephones. Over 10,000,000 motor vehicle owners have paid and are now paying what is believed to be a discriminatory tax on transportation in that they are not taxed similarly on the product of other basic industries which they might purchase for equally important and necessary purposes.

"As an example of its unfairness, the motor vehicle user who has the misfortune to break axle or other part of his vehicle must pay the excise tax on the replacement part. In other words, he must pay a tax on his misfortune. The motor vehicle owner in the past has submitted to this war tax because he realized that the Government must raise funds to prosecute the war and to help pay the bills after the war was over.

"Now that reductions of taxes are in order in accordance with the recommendations of the Secretary of the Treasury, he believes that due

ON GUARD AT BORDER

Dodge Brothers Cars Well Known For Long Life

Dodge Brothers motor cars are favorably known throughout the world for many important advantages but are probably best known for their ability to give satisfactory service over a long period of years—for a period of life beyond that commonly allotted to a motorcar. Ninety-four per cent of the cars that have been manufactured by this company are still in operation, day in, day out, in all parts of the country.

At Taylor, N. D., is Dodge Brothers Touring Car No. 217, which left the factory in December, 1914, this is about nine years ago. According to latest information this car is in daily service carrying passengers, and the owner believes that there are still many years of running still left in No. 217.

One of the most notable examples of the long life and durability of Dodge Brothers cars is found in Car No. 12, the first Dodge Brothers car shipped to the Pacific Coast, arriving there in December, 1914. No. 12 was displayed in San Francisco and Oakland, used as a demonstrator and eventually sold. Recently it was in the possession of a rancher near Santa Rosa, who used it in his daily work. He refused to sell it outright, but finally traded it in on a new car. At the present time it has been run approximately 175,000 miles.

From Walnut Cove, N. C., comes word that Car No. 5 is running satisfactorily as a service car for the Davis Repair Company. Mr. Davis writes, "The motor still has in it the original pistons and bearings that

NO REASON FOR REPORT OF UNREST

Major General McIntyre of Insular Affairs Asserts in His Report

Washington, Nov. 17.—Although political activities in the Philippine Islands and in Porto Rico have been marked in the last fiscal year, Major General Frank McIntyre, chief of the War Department's bureau of Insular Affairs, said in his annual report made public today that there was little justification for reports that "a condition of unrest existed in these territories."

"Political activity has been marked during the year," General McIntyre said, "both in the Philippine Islands and in Porto Rico. This has led many people in the United States to believe that a condition of unrest existed in these territories, which is very far from the fact. Both Porto Rico and the Philippine Islands have received during the past year greater benefits from the United States than at any time in the past, and these benefits have been more generally appreciated."

Regarding economic conditions prevailing in the Philippines during the fiscal year ended June 30, 1923, the report declared "progress toward normal conditions" had been continued. "The year has been one of general prosperity," the general continued. "The first six months of the calendar year 1923 show a material betterment in foreign trade. For this period the total shipment of domestic products was \$37,109,879, of which \$50,470,807 came to the United States; the imports were \$41,776,246, of which \$24,106,183 came from the United States."

"The showing in the sugar industry was particularly favorable. The total value of sugar industry was \$28,500,000 out of total exports slightly exceeding \$67,000,000. This excellent showing in the sugar industry, compared with former years, was due to the modern mills erected in the islands in recent years largely as a result of the administration of their sugar into the United States."

General McIntyre also declared that the "rehabilitation of the currency system" of the Philippines "was completed during the period covered" by his report—June 30, 1923 to June 30, 1922.

HUGHES CASE TO BE HEARD DECEMBER 17

State Railroad Commission
Will Investigate Charges
of Local Utility

The state railroad commission has set for hearing on December 17 the case involving the rates, charges and practices of the Hughes Electric Company of Bismarck.

There are two or three matters pending before the commission, including a petition by consumers for a reduction in electric and steam heating rates, and all of these questions will be lumped under one investigation ordered on the commission's own motion. It was said at the railroad commission offices today.

A petition was filed last year for a reduction in rates, but the Hughes company obtained a restraining order which prevented a hearing, and in a suit contested the validity of the law. The supreme court upheld the validity of the public utility laws, and the case is now permitted to go ahead.

MANY PRESENT AT OPENING OF REVIVAL HERE

Rev. Paul A. Lang of Paynesville, Minnesota, Opens a
Series of Meetings

The revival campaign at the Evangelical Church had a very promising opening day yesterday. Large crowds attended the services both morning and evening and listened with attention to the stirring messages of the Evangelist Rev. Paul A. Lang, of Paynesville, Minn.

The speaker delivered a very strong and timely address in the morning on "Childhood Conversions" and made a strong appeal to parents and Sunday School workers to give more attention to the spiritual welfare of the children.

In the evening the Evangelist spoke on the question "Why Do We Need a Revival?" He said that revivals had played a very important part in the history of the church as a whole, in the history of congregations and in the life of individual Christians.

A revival is needed for the sake of the church to bring and keep the membership in the right relation to God and make them fruitful in good works. Too many church members are merely a dead weight and never render any real service for Christ and humanity, he asserted.

Revivals are also needed, the speaker said, for the conversion of sinners. The large majority of Christians today have been led into the Christian life during special seasons of revival. When the church is truly revived sinners will inquire, "What must we do to be saved?"

A third reason why a revival is needed, the evangelist continued, is to promote the glory of God in the community. A dead church brings reproach upon the name of God. He made a strong appeal to the officials and members of the church to consecrate themselves to God for effective service in this campaign. In response to this appeal a large number of church members and workers responded and came to the altar for a renewal of their vows to God.

The male chorus rendered a fine selection.

This evening the Evangelist will speak on "The Ten Virgins of Modern Times." A cordial invitation is extended to the public.

M'MASTER NOT TO CUT PRICE

Independent Dealer Begins
Selling at 15 1/2 Cents

Sioux Falls, Nov. 19.—The action of one independent dealer here in lowering the price of gasoline to 15 1/2 cents per gallon brought an announcement from Gov. W. H. McMaster that the state will not place gasoline on sale here at 12 1/2-cent gallon.

The governor stated that his purpose had been accomplished and also sent a telegram to the independent dealer who met his price congratulating him on his actions.

PRICE CUT

Aberdeen, S. D., Nov. 19.—According to advices received here today one of the big independent dealers of Sioux Falls met the demand for the price of gasoline, met the demand of Governor McMaster with gas selling at 15 1/2 cents. State competition at 12 1/2 cents.

Red Cross First Aid Special Car No. 1 Demonstrating in 48 Railroad Centers

Upper—Lecture by surgeon and
practical demonstration inside Red
Cross Car.

Lower—Railway workers after in-
struction showing how to handle
stretcher cases.

Washington.—Scheduled primarily for a five months' safety campaign tour, the American Red Cross railway car, equipped to give first-aid instruction, has experienced so general a demand for demonstrations that the work of this No. 1 car is reaching very large audiences everywhere, according to reports from Major M. J. Shields, Red Cross field representative, and Dr. W. A. Redal, in charge of the car's staff of surgeons and assistants.

The tour started from Philadelphia late in July and will end at St. Louis December 21, making stops at 48 railroad centers. In the months of August and September the car covered 956 miles. At 150 meetings demonstrations of first aid were attended by 18,172 persons. The average audience was 150, and while railway men predominated, representatives of nearly all professions and industries were present to watch the expert Red Cross "crew" do its work.

How the interest has developed in this Red Cross plan of extending first-aid instruction is evident in the co-operation of school authorities, county health officers and

same price was immediately stopped as the word from the governor was that the gasoline be available in all communities.

The price today still holds at 18 cents at both the Standard Oil and independent stations. The state has no station in this city although it was reported at one time the original reduction was forced by McMaster last August that Brown county would establish a station.

NOTICE OF HEARING PETITION FOR LICENSE TO SELL REAL ESTATE

STATE OF NORTH DAKOTA, County of Burleigh.—ss. In County Court, Before Hon. L. C. Davies, Judge.

In the Matter of the Estate of Ellen Freede, Deceased.

Henry Freede, Petitioner, vs. Lucille Freede Hull, Robert Freede, C. W. Freede, Respondents.

The State of North Dakota to the above named Respondent and all persons interested in the Estate of Ellen Freede, Deceased:

You are hereby notified that the petition of John W. McLaughlin, administrator of the estate of Ellen Freede, late of the city of Bismarck, North Dakota, of the county of Burleigh and State of North Dakota, has been filed in this Court, therein petitioning that he be authorized, empowered and directed to sell real estate belonging to said decedent's estate, described as follows, to-wit: Lots 13 and 14 in block 130 in the Original Plat of the city of Bismarck, North half of the southwest quarter of section 10 in township 138 north of range 80 west of the 5th P. M. All in Burleigh County, N. D. That said petition will be heard by this Court on Tuesday, the 11th day of December, A. D. 1923 at 10 o'clock in the forenoon of that day, at the court rooms of this Court, in the Court House, in the city of Bismarck, County of Burleigh and State of North Dakota.

And you and each of you are hereby cited and required then and there to be and appear before this Court and show cause, if any you have, why this petition should not be granted.

Dated the 25th day of October, A. D. 1923.

By the Court,
(SEAL)
L. C. DAVIES,
Judge of the County Court.

civic clubs. In Ohio, reports state, as a result of the appearance of this first-aid car clubs are organizing classes so as to give townsmen the benefit of this Red Cross course.

The large industries—steel, rubber, wool, lumber, dye works and others—and public service corporations, such as telephone, electric, gas and street railway companies, are advising their employees to attend the first-aid exhibitions at Car No. 1. Major Shields declares that never in his seven years' experience in this service have the city firemen and policemen, high school students, Boy Scouts and Girl Scouts appeared in such large numbers as at the car meetings this year.

This traveling school of first aid is blazing the trail in a determined Red Cross campaign to cut down the 60,000 accidental deaths annually in the United States, more than 25,000 of which are credited to the railway and mechanical occupations. The car contains a lecture room seating 50 persons and is so arranged that it can be quickly turned into a hospital for 30 patients. It has living quarters for the surgeons and attendants, and is equipped with emergency supplies of food, medicines, blankets, stretchers and first-aid materials.

In seven years the Red Cross first-aid cars have covered 62 railroads, traveled 208,000 miles, held 8,000 first-aid demonstrations and reached more than 1,000,000 persons. The railroads have placed every facility at the disposal of the Red Cross for this humane service which is taking to the people simple and practical lessons in saving human life. The Baltimore and Ohio system is co-operating in the present instruction tour by arranging for the entire schedule to cover the company's own lines. The work of this car is influencing enrollment of many hundreds of workers in the Red Cross, whose annual campaign or Roll Call is taking place throughout the world from November 11 to November 29.

SEVERAL DIE IN EXPLOSION

Santiago, Chile, Nov. 19.—Several persons were killed and more than 50 wounded, many seriously by an explosion today at the Army ammunition factories in the southern suburbs of Santiago.

CASH PRIZES FOR BEST CORN

What the World Is Doing

AS SEEN BY POPULAR MECHANICS MAGAZINE

Makes Heatless Light by Harnessing Electrons

After two years of experimenting to develop bottled, heatless light, an eastern inventor has announced discoveries that may result in the harnessing of almost limitless power for the use of mankind. He claims that he has succeeded in inventing a tube, not unlike the ordinary electric bulb, that

will give 100 candlepower continuously for three years without the use of connecting wires, batteries, or need of renewals.

It is known that every bit of rock, piece of steel, or even a penny is a colossal reservoir of energy in the form of electrons, that are constantly moving at a speed of from 10,000 to 100,000 miles a second. In his search for a force that would release this energy and at the same time control it, this inventor developed a 5,000,000 volt flash of lightning, a yard in diameter, which jumped a gap of 37 feet and was maintained for 31 seconds.

The jolt from the electricity, he says, started a series of "explosions" in the secret material composing the filaments of the lights. But, instead of occurring all at one time, the explosions are spread over a period of years, according to the amount of substance used in the bulbs. Special and highly complicated apparatus was used to draw electricity from the air to cap-

ture and harness the current used in developing "cold" light. The illustration shows some of this intricate apparatus in his laboratory.

In his experiments, the inventor said that he had made profound changes in the composition of the filaments inside the lights by rubbing the bulbs with green leaves. Also, he says, he was puffed up like a balloon and several pounds were added to his weight by the electrons that entered his system while experimenting in his laboratory.

Easily Made Waterwheel for Running Small Dynamo

By using a light waterwheel of the type illustrated, where sufficient water current is available for turning it, the energy of the flowing water can be transformed and used for practical purposes.

The waterwheel can be made by attaching a number of tin cans, of suitable size, on the felloes of a discarded buggy wheel, and fastening the wheel, together with a pulley, on a shaft, that is supported by a wooden frame. The pulleys on the waterwheel and dynamo must be so proportioned in size that it will be possible to revolve the armature at its rated r. p. m., in order to obtain the voltage and amperage purposes.

That the dynamo is capable of producing...

By concentrating the water current in a narrow channel, as shown, a greater force will be exerted on the waterwheel.

CROWN PRINCE WILL REMAIN IN GERMANY

Chancellor Stresemann Declares Demand For Him Will Be Refused Allies

Berlin, Nov. 19.—Chancellor Stresemann in a long defense of his policy last evening said: "We are threatened with further penalties on account of the return of the Crown Prince. I hold it, however, better to suffer new French brutalities than to bear the reproach that the last German who fought in the great war should remain exiled abroad far from his family."

Cheers greeted the statement. "All the burdens must be borne by us," he continued, "in addition to our political burdens. We shall probably be faced with a demand for the surrender of the Crown Prince and of course shall reject that demand. Nevertheless these impending political difficulties remain a great weight on us and any increase of them through the creation of a dictatorship and an anti-constitutional government would be unbearable."

LAND CONTRACT PLAN INVALID

Supreme Court Holds Method
Used to Dodge Land Law
Is Illegal

Washington, Nov. 19.—"Cropping contracts" with aliens ineligible to own or lease land under the alien land laws of California were held by the supreme court to be invalid. The decision was in a case brought by the attorney general of California and the district attorney of Sanata Clara against John O'Brien and J. Nouye.

WALTON CASE IS NEAR END

Oklahoma City, Nov. 19.—The last of the witnesses in the trial of Gov. J. C. Walton before the senate court will be heard today, the house board of managers conducting the prosecution of the suspended executive announced. Whether a vote on the removal of the governor will be taken today or deferred until Tuesday depends upon the time required for the examinations of the witnesses it was said.

PRISON HERD RECORD GOOD

Leads Burleigh County Cow
Testing Circuit in Production

The penitentiary Holstein herd, which includes some fine pure bred stock, averaged highest in butterfat production for the month of October on the Burleigh county cow testing circuit, according to the superintendent's report today. The pen herd averaged 610 pounds of milk and 24.49 pounds of butterfat per cow. L. Garske's herd was second high with 567 pounds of milk and 24.30 pounds of butterfat.

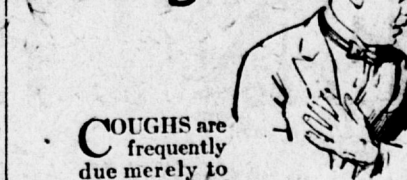

Best individual performers were:

State herd at Pen—Grade	Milk	Fat
Holstein	1,666	71.63
State herd at Pen—Grade		
Holstein	1,329	50.47
State herd at Pen—Pure-bred Holstein	1,146	49.75
State herd at Pen—Grade		
Holstein	1,212	48.48
State herd at Pen—Grade		
Holstein	1,132	47.50
State herd at Pen—Grade		
Holstein	935	43.24
A. C. Jordan, Driscoll, Grade Holstein	974	48.67
Schneider Bros, Bismarck	1,380	49.66
L. Garske, Bismarck	1,199	43.02

Seventeen head of grade Holsteins have been purchased by the members and only one member on the circuit has no pure bred bull.

All of us have to keep warm. We sell "CLEAN-BURN"—"BEAR CREEK"—"ROUNDUP" and "INDIAN HEAD" Coals. BISMARCK LUMBER COMPANY. Phone 17.

Coughing only aggravates a cough

COUGHS are frequently due merely to irritation caused by a congested condition of throat and lung tissue. Persistent hacking will then only increase the congestion and continue the cough indefinitely. Such coughs can and should

be stopped at once because they are a futile waste of strength. Dr. King's New Discovery checks coughing quickly and without any bad after-effects. It quiets violent throat and lung spasms and gives the congestion a chance to clear away. It has an agreeable taste. All druggists.

DR. KING'S NEW DISCOVERY

PEOPLE'S FORUM

YES, IT STANDS FISHY

Editor The Tribune: Here's a fish story that sounds fishy but is true. States Attorney Allen decided he wanted to try his luck at fishing once more this fall, so he got up a party of four and started out for Yucca. After driving around the hills north of Mandan for about two hours we came to our destination. Square Butte Creek, the home of the big pike. Of course, Mr. Allen started to cast before the car came to a stop—but here's where the sad story begins. Mr. Allen cast out his line and he hooked a big one. He landed the big pike on the shore behind him. At that instant he was startled by a terrific whirl overhead, and to his great surprise saw a fair-sized bald eagle swoop down upon his prize pike, sink his talons and fly away with fish, line and rod. The eagle rose to a height of several hundred feet, line and pole dangling below.

when the burden became so great the bird let go. The fish fell in the water, started upstream dragging Mr. Allen's prize pole behind. The last Mr. Allen saw of his prize outfit was a streak of foam showing the pike heading up stream at a 30-mile an hour clip. Witnesses—Sheriff Hedstrom, Rollin Welch, Mr. Allen.

MANDAN NEWS

Burglars Enter Three Stores

Burglars who entered three local stores obtained some cheese, sugar and a few pennies last Friday. Entrance was effected in three stores on East Main, according to the report of three proprietors. At the H. S. Friess store they obtained a few pennies from the cash drawer, at the Army and Navy store, nothing of value was reported missing; while at the Bessie Grocery they secured two sacks of sugar, two bricks of cheese and a few other articles.

Police officers believe the work to be that of amateurs or boys.

The people of Hebron were given a surprise when they learned of the marriage of Miss Ida Johnson and Kurth H. Krauth Saturday, Nov. 10, at Miles City, Mont. The bride is a daughter of Mr. and Mrs. E. Johnson of Halstad, Minn., and the groom is a son of Mr. and Mrs. Charles Krauth who at one time resided here, but at present are touring in Europe.

Mrs. Melvin Bull left yesterday for Los Angeles, where she will spend a couple of months as the guest of her sister, Mrs. Wm. Hausman.

Injuries sustained while wrestling last Sunday which resulted in lockjaw caused the death of 11-year-old Raphael, son of Mr. and Mrs. Anton Fritz, of Willard, formerly of this city. Raphael was hurt Sunday when he fell while wrestling and while rushed to the Dickinson hospital for treatment, lockjaw or tetanus poisoning appeared almost immediately. He was also partially paralyzed by his fall.

RAIL PAYMENT, TAX IS SHOWN

Some Counties Receive More Than Is Paid Into the State Fund

Some counties in the state receive more money in rail indemnity than is paid into the state rail insurance fund in indemnity tax, according to figures of the state rail insurance department.

Losses are lightest in the eastern counties of the state, and heaviest, as a rule, in the western part of the state.

The amount of the indemnity and the indemnity tax for 1923 follows:

County	Indemnity	Tax
Adams	\$199,401.34	\$45,013.49
Barnes	23,715.21	94,374.36
Benson	12,928.51	91,045.69
Billings	39,482.33	81,540.66
Bottineau	123,449.22	119,934.59
Bowman	182,998.01	80,084.35
Burke	62,491.77	79,824.35
Burlingame	97,045.76	111,065.42
Cass	14,104.12	61,782.00
Cavalier	8,218.12	62,197.99
Dickey	82,696.27	68,525.41
Divide	282,271.74	133,046.68
Dunn	251,572.95	143,667.12
Eddy	25,967.20	62,770.24
Emmons	65,187.23	90,415.85
Foster	36,352.78	90,932.26
Golden Valley	115,876.67	69,032.35
Grand Forks	4,387.83	47,613.94

Sargent	40,292.77	33,759.30
Sheridan	55,448.74	97,469.20
Stutsman	9,830.75	15,580.50
Slope	384,264.51	71,248.14
Stark	125,481.14	114,770.05
Steele	14,449.49	37,219.56

Stutsman 153,418.10 218,774.05
Towner 65,204.84 56,887.00
Traill 4,405.41 45,281.75
Walsh 5,792.85 40,056.80
Ward 27,054.35 121,783.23
Wells 81,579.42 80,389.53
Williams 147,817.55 193,064.83

The total indemnity tax this year, under the maximum provisions of the law, is approximately \$3,945,000, while the total indemnity is \$4,668,381.72.

Manager Hagen of the rail insurance department maintains that had certain counties been insured as a unit, instead of taking the state as a unit, their insurance loss ratio would have been higher. In 1919 he said the average for the state was 41-2 per cent, and the loss of Traill county, were it a single unit, was 77-2 per cent, Steele, 63-4 per cent, Pembina 5-71 per cent, Ransom 6-16 per cent, Cavalier 5-48 per cent, and in 1921 the state average was 6-3 per cent and Barnes county as a unit, would have been 10-84 per cent.

Annual November Sale of Coats and Dresses

The quick invigorating tingle which Winter's frosty breath sends through every vein, is a good signal for the completion of smart winter outfits. There will be added zest to the task when the array of smart winter Coats and Frocks included in our November Sale, appears before you. For every garment has the distinction and individuality of style which is the keynote of the season's modes, while at the same time the necessity for practical all weather service has been recognized.

Utility Coats - Dressy Coats - Wraps

FOUR HANDSOME GROUPS

\$21.75 \$29.75 \$39.75 \$49.75

These coats are distinctive, both in their smart new lines and the richness of the fabrics employed. Deep pile fabrics in dark lustrous shades vie in popularity with soft novelty wools. Many are luxuriously trimmed with fine furs. The furs are glossy lustrous pelts, selected to harmonize perfectly with the fabrics on which they are used. Prices in many instances are as low as half from what they were earlier in the season. Be sure and come down early as it will insure the best selection.

Millinery

In New Variations
SPECIALLY PRICED

The varied types of hats which are suitable for wear with every style of winter costume are included. Hats of Velour, Sport Hats and Street Hats that sold up to \$10.00. Specially priced during this sale at your choice

\$5.00

Other groups Specially Priced at

\$3.95 \$6.95 \$10.50

Frocks for Every Occasion

THREE LARGE SALES GROUPS

\$22.50 \$32.50 \$45.00

The Holidays and the busy winter months are crowded with varied and important occasions. Included in these groups you will find dresses for every purpose. Dresses of crepes, satins, poret twill, wool crepes and novelty flannels. New style notes are noticeable in every garment, while the quality of materials and fine workmanship are sure to surprise you in a most pleasing way and you will readily agree that they are most unusual values at these very low prices.

Wool Dresses

Specially Priced

Distinctly of this season's mode, yet conservative and suited for street or school wear these wool frocks will prove particularly practical throughout the winter. Styles are many and varied. Two Groups priced special for our November Sale at

\$13.50 and \$19.50

Sport and Utility Coats

These are the trig, sensible coats of plaided, stripes and novelty wools that serve all purposes, for while they are practical to the last degree, the beauty of the rich wools, the effectiveness of modish lines on which the coats are styled make them as desirable for dress up wear as for every day service. They are values up to \$35.00. Grouped for our November Sale at

\$17.50

Burglars Enter Three Stores

Burglars who entered three local stores obtained some cheese, sugar and a few pennies last Friday. Entrance was effected in three stores on East Main, according to the report of three proprietors. At the H. S. Friess store they obtained a few pennies from the cash drawer; at the Army and Navy store, nothing of value was reported missing; while at the Rosen Grocery they secured two sacks of sugar, two bricks of cheese and a few other articles. Police officers believe the work to be that of amateurs or boys.

The people of Hebron were given a surprise when the intended of the marriage of Miss Ida Johnson and Kurth H. Krauth Saturday, Nov. 10, at Miles City, Mont. The bride is a daughter of Mr. and Mrs. E. Johnson of Halstad, Minn., and the groom is a son of Mr. and Mrs. Charles Krauth who at one time resided here, but are present are touring in Europe.

Mrs. Melvin Bull left yesterday for Los Angeles, where she will spend a couple of months as the guest of her sister, Mrs. Wm. Hansen.

Injuries sustained while wrestling Sunday which resulted in lockjaw caused the death of 11-year-old Raphael, son of Mr. and Mrs. Anton Fritz, of Ellender, formerly of this city. Raphael was hurt Sunday when he fell while wrestling and while rushed to the Dickinson hospital for treatment, lockjaw or tetanus poisoning appeared, almost immediately. He was also partially paralyzed by his fall.

HAIL PAYMENT, TAX IS SHOWN

Some Counties Receive More Than Is Paid Into the State Fund

Some counties in the state receive more money in hail indemnity than is paid into the state hail insurance fund in indemnity tax, according to figures of the state hail insurance department.

Losses are lightest in the eastern counties of the state, and heaviest, as a rule, in the western part of the state. The amount of the indemnity and the indemnity tax for 1923 follows:

County	Indemnity	Tax
Adams	\$199,601.34	\$ 45,013.49
Barnes	23,716.21	94,374.36
Benson	12,928.51	91,045.69
Bjalling	39,482.33	31,540.56
Bottineau	133,449.92	119,934.59
Bowman	182,998.01	60,066.35
Burke	62,401.77	79,624.35
Burlingame	97,045.76	111,066.42
Cass	14,104.12	61,782.00
Cavalier	8,218.19	62,127.99
Dickey	82,996.87	88,526.41
Divide	423,271.74	133,046.88
Dunn	281,572.95	143,657.12
Eddy	25,967.20	62,770.24
Emmons	65,167.23	90,415.85
Foster	38,852.78	80,932.26
Golden Valley	115,470.67	69,032.35
Grand Forks	4,387.83	47,619.94
Grant	119,443.78	89,111.20
Grisette	926.45	48,657.18
Hettinger	161,948.52	74,536.59
Kidder	84,553.05	64,824.05
LaMoure	136,470.99	135,373.83
Logan	99,741.59	84,733.05
McHenry	49,457.72	50,551.50
McIntosh	26,382.32	43,848.60
McKenzie	151,917.95	82,371.75
McLean	206,229.47	92,855.12
Merced	45,477.12	66,948.16
Morton	33,406.01	75,345.25
Mountrail	156,424.89	106,756.43
Nelson	14,368.14	38,803.67
Oliver	57,421.11	32,976.10
Pembina	5,563.52	53,369.99
Pierce	19,716.05	32,932.05
Ramsey	12,391.18	34,964.08
Ransom	20,845.78	41,678.58
Renville	211,015.74	93,328.29
Richland	11,989.07	20,316.55
Rolette	15,618.54	31,833.50
Sargent	40,292.77	33,759.89
Sheridan	88,448.74	37,463.20
Sioux	9,330.75	15,580.50
Slope	384,264.91	71,346.14
Stark	125,481.14	114,770.05
Steele	14,448.49	37,213.55

Stutsman 158,443.30 218,274.05
Towner 65,524.84 56,957.00
Traill 4,685.41 45,251.75
Walsh 5,799.65 40,056.80
Ward 87,054.35 121,783.39
Wells 81,879.43 90,389.53
Williams 147,817.55 193,064.83

The total indemnity tax this year, under the maximum provisions of the law, is approximately \$3,945,000, while the total indemnity is \$4,668,381.72.

Manager Hagen of the hail insurance department maintains that had certain counties been insured as a unit, their insurance loss ratio would have been higher. In 1919 he said the average for the state was 11-2 per cent, and the loss of Traill county, were it a single unit, was 7-2 per cent, Steele, 6-84 per cent, Pembina 5-71 per cent, Ransom 6-10 per cent, Cavalier 5-48 per cent, and in 1921 the state average was 6-3 per cent and Barnes county as a unit, would have been 10-84 per cent.

Annual November Sale of Coats and Dresses

The quick invigorating tingle which Winter's frosty breath sends through every vein, is a good signal for the completion of smart winter outfits. There will be added zest to the task when the array of smart winter Coats and Frocks included in our November Sale, appears before you. For every garment has the distinction and individuality of style which is the keynote of the season's modes, while at the same time the necessity for practical all weather service has been recognized.

Utility Coats - Dressy Coats - Wraps

FOUR HANDSOME GROUPS

\$21.75 \$29.75 \$39.75 \$49.75

These coats are distinctive, both in their smart new lines and the richness of the fabrics employed. Deep pile fabrics in dark lustrous shades vie in popularity with soft novelty woolsens. Many are luxuriously trimmed with fine furs. The furs are glossy lustrous pelts, selected to harmonize perfectly with the fabrics on which they are used. Prices in many instances are as low as half from what they were earlier in the season. Be sure and come down early as it will insure the best selection.

Frocks for Every Occasion

THREE LARGE SALES GROUPS

\$22.50 \$32.50 \$45.00

The Holidays and the busy winter months are crowded with varied and important occasions. Included in these groups you will find dresses for every purpose. Dresses of crepes, satins, poiret twill, wool crepes and novelty flannels. New style notes are noticeable in every garment, while the quality of materials and fine workmanship are sure to surprise you in a most pleasing way and you will readily agree that they are most unusual values at these very low prices.

Wool Dresses

Specially Priced

Distinctly of this season's mode, yet conservative and suited for street or school wear these wool frocks will prove particularly practical throughout the winter. Styles are many and varied. Two Groups priced special for our November Sale at

\$13.50 and \$19.50

Sport and Utility Coats

These are the trig, sensible coats of plaided, stripes and novelty woolsens that serve all purposes, for while they are practical to the last degree, the beauty of the rich woolsens, the effectiveness of modish lines on which the coats are styled make them as desirable for dress up wear as for every day service. They are values up to \$35.00. Grouped for our November Sale at

\$17.50

HUGHES CASE TO BE HEARD DECEMBER 17

State Railroad Commission
Will Investigate Charges
of Local Utility

The state railroad commission has set for hearing on December 17 the case involving the rates, charges and practices of the Hughes Electric Company of Bismarck.

There are two or three matters pending before the commission, including a petition by consumers for a reduction in electric and steam heating rates, and all of these questions will be lumped under one investigation ordered on the commission's own motion, it was said at the railroad commission offices today.

A petition was filed last year for a reduction in rates, but the Hughes company obtained a restraining order which prevented a hearing, and in a suit against the validity of the law. The supreme court upheld the validity of the public utility laws, and the case is now permitted to go ahead.

MANY PRESENT AT OPENING OF REVIVAL HERE

Rev. Paul A. Lang of Paynesville, Minnesota, Opens a
Series of Meetings

The revival campaign at the Evangelical Church had a very promising opening day yesterday. Large crowds attended the services both morning and evening and listened with interest to the stirring messages of the evangelist Rev. Paul A. Lang, of Paynesville, Minn.

The speaker delivered a very strong and timely address in the morning on "Childhood Conversations" and made a strong appeal to parents and Sunday school workers to give more attention to the spiritual welfare of the children.

In the evening the evangelist spoke on the question "Why Do We Need a Revival?" He said that revivals had played a very important part in the history of the church as a whole, in the history of congregations and in the life of individual Christians.

A revival is needed for the sake of the church to bring and keep the membership in the right relation to God and make them fruitful in good works. Too many church members are merely a dead weight and never render any real service for Christ and humanity, he asserted.

Revivals are also needed, the speaker said, for the conversion of sinners. The large majority of Christians today have been led into the Christian life during special seasons of revival. When the church is truly revived sinners will inquire, "What must we do to be saved?"

A third reason why a revival is needed, the evangelist continued, is to prophesy the glory of God in the community. A dead church brings reproach upon the name of God. He made a strong appeal to the officials and members of the church to consecrate themselves to God for effective service in this campaign. In response to this appeal a large number of church members and workers responded and came to the altar for a renewal of their vows to God.

The male chorus rendered a fine selection.

This evening the evangelist will speak on "The Ten Virgins of Modern Times." A cordial invitation is extended to the public.

M'MASTER NOT TO CUT PRICE

Independent Dealer Begins
Selling at 15 1/2 Cents

Sioux Falls, Nov. 19.—The action of one independent dealer here in lowering the price of gasoline to 15 1/2 cents per gallon brought an announcement from Gov. W. H. McMaster that the state will not place gasoline on sale here at 12 1/2 cents per gallon.

The governor stated that his purpose had been accomplished and also sent a telegram to the independent dealer congratulating him on his action.

Abcording to the state, the dealer's price is 15 1/2 cents per gallon.

Red Cross First Aid Special Car No. 1 Demonstrating in 48 Railroad Centers

Upper—Lecture by surgeon and practical demonstration inside Red Cross Car.

Lower—Railway workers after instruction showing how to handle stretcher cases.

Washington.—Scheduled primarily for a five months' safety campaign tour, the American Red Cross railway car, equipped to give first-aid instruction, has experienced so general a demand for demonstrations that the work of this No. 1 car is reaching every large audience everywhere, according to reports from Major M. A. Shields, Red Cross field representative, and Dr. W. A. Redal, in charge of the car's staff of surgeons and assistants.

The tour started from Philadelphia late in July and will end at St. Louis December 21, making stops at 48 railroad centers. In the months of August and September the car covered 956 miles. At 130 meetings demonstrations of first aid were attended by 18,172 persons. The average audience was 150, and while railway men predominated representatives of nearly all professions and industries were present to watch the expert Red Cross "crew" do its work.

How the interest has developed in this Red Cross plan of extending first-aid instruction is evident in the co-operation of school authorities, county health officers and

same price was immediately stopped as the word from the Governor was that the gasoline be available in all communities.

The price today still holds at 18 cents at both the Standard Oil and independent stations. The price at the station in this city although it was reported at the time the original reduction was forced by McMaster last August that Brown county would establish a station.

NOTICE OF HEARING PETITION FOR LICENSE TO SELL REAL ESTATE

STATE OF NORTH DAKOTA, County of Burleigh ss. In Court before Hon. J. C. Davies, Judge.

In the Matter of the Estate of Ellen Freede, Deceased.

Henry Freede, Petitioner vs. Lucille Freede Bull, Robert Freede, C. W. Freede, Respondents.

The State of North Dakota to the above named Respondent and all persons interested in the Estate of Ellen Freede, deceased:

You are hereby notified that the petition of John W. McLaughlin, administrator of the estate of Ellen Freede, late of the city of Oklahoma City in the County of Oklahoma and State of Oklahoma, deceased, was filed in this Court, wherein petitioned that he be authorized, empowered and directed to sell real estate belonging to said decedent's estate, described as follows: to-wit: Lots 13 and 14 in block 139 in the Original Plat of the city of Bismarck, North half of the southwest quarter of section 19 in township 138 north of range 80 west of the 5th P. M. All in Burleigh County, N. D.

That said petition will be heard by this Court on Tuesday, the 11th day of December, A. D. 1923, at 10 o'clock in the forenoon of that day, at the court rooms of this Court, in the Court House, in the city of Bismarck, County of Burleigh and State of North Dakota.

And you and each of you are hereby cited and required then and there to be and appear before this Court and show cause, if any you have, why this petition should not be granted.

Dated the 25th day of October, A. D. 1923.

By the Court,
(SEAL)
J. C. DAVIES,
Judge of the County Court.

SEVERAL DIE IN EXPLOSION

Santiago, Chile, Nov. 19.—Several persons were killed and more than 50 wounded, many seriously by an explosion today at the Army ammunition factories in the southern suburbs of Santiago.

CASH PRIZES FOR BEST CORN

Dickinson, Nov. 19.—New England Town Cruisers have voted to offer \$50 in cash prizes to the boys and girls of the New England territory who raise the best corn in 1924. There

are no strings attached to the offer and all boys and girls of the community may compete.

EXCHANGE RISES IN NEW YORK

New York, Nov. 19.—British exchange today advanced 10 cents from its low record of .4225, established earlier in the day. French francs jumped nearly 20 points and other rates rose in sympathy.

LEAVES FOR CITIES

Mrs. Patrick McHugh left yesterday for a few days visit in the Twin Cities.

What the World Is Doing

AS SEEN BY POPULAR MECHANICS MAGAZINE

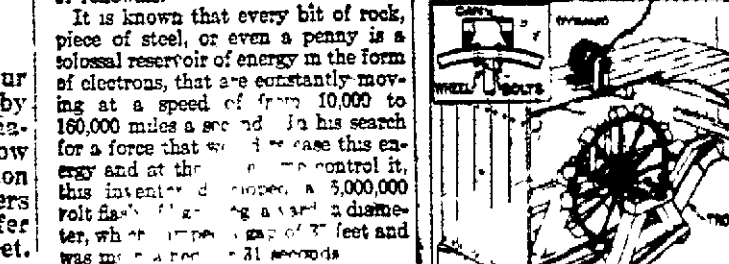

Makes Heatless Light by Harnessing Electrons

After two years of experimenting to develop bottled, heatless light, an eastern inventor has announced discoveries that may result in the harnessing of almost limitless power for the use of mankind. He claims that he has succeeded in inventing a tube, not unlike the ordinary electric bulb, that

will give 100 candlepower continuously for three years without the use of connecting wires, batteries, or need of renewals.

It is known that every bit of rock, piece of steel, or even a penny is a colossal reservoir of energy in the form of electrons, that are constantly moving at a speed of from 10,000 to 100,000 miles a second. In his search for a force that would control this energy and at the same time produce a light, the inventor discovered a 5,000,000 volt force that would control a diameter of from 1/16 of an inch to 1/8 of an inch.

The inventor, who is a chemist, he says, started with "cathode rays" in the secret matter contained in the filaments of the tube. Instead of occurring all at one time, the electrons are spread over a period of years, according to the amount of substance used in the bulb. Special and highly complicated apparatus was used to draw electricity from the air to cap-

ture and harness the current used in developing "cold" light. The illustration shows some of this intricate apparatus in his laboratory.

In his experiments, the inventor said that he had made profound changes in the composition of the filaments inside the lights by rubbing the bulbs with green leaves. Also, he says, he was puffed up like a balloon and several pounds were added to his weight by the electrons that entered his system while experimenting in his laboratory.

Easily Made Waterwheel for Running Small Dynamo

By using a light waterwheel of the type illustrated, where sufficient water current is available for turning it, the energy of the flowing water can be transformed and used for practical purposes.

The waterwheel can be made by attaching a number of cast-iron or suitable sized, on the form of a discarded buggy wheel, and attaching the wheel together with a pulley on a shaft, that is supported by a wooden frame. The pulleys on the waterwheel and dynamo must be of proper sized and size that it will be possible to revolve the armature at its rated speed in order to obtain the voltage and amperage desired.

There was a decrease in the birth rate in the United States last year and an increase in the death rate, according to recent government figures. The number of births dropped from 34.2 in a 1,000 population in 1921 to 32.7 in 1922, and deaths increased from 11.7 to 11.8.

CROWN PRINCE WILL REMAIN IN GERMANY

Chancellor Stresemann Declares Demand For Him Will Be Refused Allies

Berlin, Nov. 19.—Chancellor Stresemann in a long defense of his policy last evening said: "We are threatened with further penalties on account of the return of the Crown Prince. I hold it, however, better to suffer new French brutalities than to bear the approach of the last German who fought in the great war should remain exiled abroad far from his family."

Cheers greeted the statement.

"All the burdens must be borne by us," he continued, "in addition to our political burdens. We shall probably be faced with a demand for the surrender of the Crown Prince and of course shall reject that demand. Nevertheless these impending political difficulties remain a great weight on us and any increase of them through the creation of a dictatorship and an anti-constitutional government would be unbearable."

LAND CONTRACT PLAN INVALID

Supreme Court Holds Method Used to Dodge Land Law Is Illegal

Washington, Nov. 19.—"Cropping contracts" which allow landless tenants to lease land under the alien land laws of California were held by the supreme court to be invalid. The decision was in a case brought by the attorney general of California and the district attorney of Sanata Clara against John O'Brien and J. Noyce.

WALTON CASE IS NEAR END

Oklahoma City, Nov. 19.—The last of the witnesses in the trial of Gov. J. C. Walton before the senate court will be heard today, the house board of managers conducting the prosecution of the suspended executive announced. Whether a vote on the removal of the governor will be taken today or deferred until Tuesday depends upon the time required for the examinations of the witnesses it was said.

DR. KING'S NEW DISCOVERY

PEOPLE'S FORUM

YES, IT STANDS FISHY

Editor The Tribune:

Here's a fish story that sounds fishy but is true. States Attorney Allen decided he wanted to try his luck at fishing once more this fall, so he got up a party of four and started out for Yucca. After driving around the hills north of Mandan for about two hours we came to our destination. Square Butte Creek, the home of the big pike. Of course, Mr. Allen started to cast before the car came to a stop—but here's where the sad story begins. Mr. Allen cast out his line and he hooked a big one. He landed the big pike on the shore behind him. At that instant he was startled by a terrific white splash, and to his great surprise saw a fair-sized bald eagle swoop down upon his prize pike, sink his talons and fly away with fish, line and rod. The eagle rose to a height of several hundred feet, line and pole dangling below,

when the burden became so great the bird let go. The fish fell in the water, started upstream dragging Mr. Allen's prize pole behind. The last Mr. Allen saw of his prize outfit was a streak of foam showing the pike heading up stream at a 30-mile an hour clip.

Witnesses—Sheriff Hedstrom, Rollin Welch, Mr. Allen. J. McCluskey.

First H. S. Debate Set For Tuesday

The first high school debate of the season will be held Tuesday evening at the high school at 7:30 o'clock. The question to be argued will be: "Resolved: That the Philippines should be given their independence."

Taking the affirmative side of the question will be Waldo Erickson, Alta Thompson and Jack Dingle; the negative side will be defended by George Knowles, Helen Brooks, and Catherine Moynier. Miss Marian Leabier is coach of the debaters. In addition to the debate a short musical program will be given. Miss Irma Weigle and Miss Alice Larson will each give a piano solo and Miss Clara Hultberg has charge of a pantomime which will be given.

The public is cordially invited to attend and show the students they are interested in them.

ON POLE TEAM

First Lieutenant Paul M. Jewell, Battery C, 14th Field Artillery, son of Mrs. M. H. Jewell of Bismarck, is a member of an army team that is bringing polo to Seattle for the first time. The opening contest was held Saturday between the "Freebooters," made up of players from the regular army, 14th field artillery and civilians, and a team from the 146th field artillery. The match, well sponsored by the Polo and Horse Show Association of Seattle, and it is recorded in the Seattle newspaper, which carried pictures of the teams, that polo ponies are being sought and carefully groomed for the contests.

SURPRISE FAREWELL PARTY

A delightful surprise party and farewell was given Miss Myrtle Smart by 24 of her little friends Saturday evening at the Smart residence, 515 Main Avenue. The boys and girls spent the evening playing games, and they presented their little playmate with several appropriate remembrances. At the close of the happy evening luncheon was served. Miss Myrtle leaves this week with her mother for their new home in Jefferson City, Mo.

ANNUAL BANQUET FOR WOMAN'S CLUB

At the annual banquet given by members of the Woman's club with their husbands as guests were held for 27 at Elks hall Saturday evening at 7 o'clock. The table was artistically decorated in green and yellow. Mrs. H. F. C. B. Hagen had charge of arrangements. After the four course dinner a delightful evening was spent in dancing.

KEEP OPEN HOUSE

Member of the B. & P. W. club will hold open house during the week of the teachers convention in Bismarck for guests at the convention daily from 4 to 6 o'clock. Mrs. E. M. Stanton is chairman of the committee in charge. She is assisted by Miss Rita Murphy, Monday; Mrs. F. R. Smyth, Tuesday; Miss Mary Huber, Wednesday; Mrs. C. E. Nuhn, Thursday; and Mrs. Fred Ohls, Friday.

PLAY PROVES ENTERTAINING

"But in a Rush," a three act play given by the pupils of Driscoll high school, Saturday evening proved a highly enjoyable entertainment to the large audience attending the performance in the City Hall. The funds obtained in this way will be used for purchasing athletic equipment. A number of Bismarck residents attended.

MRS. LA ROSE VISITS DAUGHTER

Mrs. V. J. LaRose left Saturday for St. Joseph, Minn., to visit her daughter, Miss Marvella, who is a student at St. Benedict's. Before returning she will visit in the Twin Cities.

UNITED IN MARRIAGE

Miss Gladys Paulson of Braddock, and Mrs. Abner Martinson of Kinross, were united in marriage at the First Lutheran parsonage, Saturday evening, November 17th. Rev. E. F. Alfson officiated. Mrs. E. F. Alfson and Miss Sigrid Alfson were the attendants.

SPEAKS AT HIGH SCHOOL

Rev. George Newcomb spoke before the high school students this morning on the work of the Humane Society and Society for the Friendless. He explained what they had planned to accomplish and spoke of their proposed drive for funds.

EASTERN STAR MEETING

The regular meeting of the Eastern Star will be held Tuesday evening at 7:30 o'clock. Election of officers will take place at this time and all members are asked to attend.

B. & P. W. CURRENT EVENTS CLUB

The Current Events club of the B. & P. W. club will hold their meeting at the club rooms Tuesday evening at 7 o'clock.

WAR MOTHERS

The regular monthly meeting of the American War Mothers will be held at the home of Mrs. B. K. Skeris on West Thayer in Riverview, Tuesday afternoon, at 3 o'clock.

WOMAN'S BENEFIT ASSOCIATION

The Woman's Benefit Association of the Marabees will meet this evening at I. O. O. F. hall. Refreshments will be served.

SIX WEEKS EXAMS

Six weeks examinations for the high school students will begin tomorrow and conclude Wednesday noon.

HY-LO BRIDGE CLUB

The Hy-Lo Bridge club will meet

United Gobblers. Election of officers tonight.

yle Features Important in Schoolgirls' Clothes

By JULIA BOTTOMLEY

In schoolgirls' clothes there are a few unobtrusive, but distinctive, new style features that are important. These either indicate a trend in popular demand or reveal a high light reflected from growing-up fashions, or show an ingenious combination of materials—all very interesting to those who are providing wardrobes for youngsters from six to sixteen. Many a thrifty mother sends her young folks to school, well dressed, in up-to-date-but-made-over-and-remodeled frocks which she has remodeled by introducing these new style notes.

Girls' frocks and coats, like those of grownups, feature straight lines and side fastenings. For coats, the cloths most used are astrakhan, broadcloth, cheviots, velours, boy's and similar weaves—all serviceable and practical. True trimmings are not featured in children's coats this season, but some fabric-furs are used in collars and cuffs; and there is a marked liking for flaring sleeves. Brown, tan, gray and dark blue are popular.

with Mrs. T. G. Plomason, 204 West Rosser street, Wednesday afternoon, at 3:30.

ON VISIT

Mr. and Mrs. Robert Murray left this morning for a ten day visit in Brainerd, and the Twin Cities. They will visit with Mr. Harrison in the former place.

LEAVE FOR ESMOND

Mr. and Mrs. H. E. Helgeson of Taylor left Saturday for Esmond after visiting for the past week at the home of Mr. and Mrs. J. G. McQuillan.

TOO MUCH MONEY FOR FOOD

If you have a lot of money to spend on food you will eat more food than you need. Much of it will be indigestible and will have little food value. Every particle of Shredded Wheat Biscuit is real food. It is 100 per cent whole wheat, and being so thoroughly cooked is easily digested. Eaten with milk it is just as satisfying for lunch and dinner as it is for breakfast. Don't sprinkle any bran food over Shredded Wheat—it contains all the bran you need to prevent and cure constipation.

First H. S. Debate Set For Tuesday

The first high school debate of the season will be held Tuesday evening at the high school at 7:30 o'clock. The question to be argued will be: "Resolved: That the Philippines should be given their independence."

Taking the affirmative side of the question will be Waldo Elickson, Alta Thompson and Jack Dingle; the negative side will be defended by George Knowles, Helen Brooks, and Catherine Moynier. Miss Marian Leshier has coached the debaters.

In addition to the debate a short musical program will be given. Miss Irma Weigle and Miss Alice Larson will each give a piano solo and Miss Clara Hultberg has charge of a pantomime which will be given.

The public is cordially invited to attend and show the students they are interested in them.

ON POLE TEAM

First Lieutenant Paul M. Jewell, Battery C, 146th Field Artillery, son of Mrs. M. H. Jewell of Bismarck, is a member of an army team that is bringing polo to Seattle for the first time. The opening contest was held Saturday between the "Freebooters," made up of players from the regular army, 146th field artillery and civilians, and a team from the 146th field artillery. The match was sponsored by the Polo and Horse Show Association of Seattle, and it is recorded in the Seattle newspaper, which carried pictures of the teams, that polo ponies are being sought and carefully groomed for the contests.

SURPRISE, FAREWELL PARTY

A delightful surprise party and farewell was given Miss Myrtle Smart by 24 of her little friends Saturday evening at the Smart residence, 315 Mandan Avenue. The boys and girls spent the evening playing games, and they presented their little playmate with several appropriate mementoes. At the close of the happy evening luncheon was served. Miss Myrtle leaves this week with her mother for their new home in Jefferson City, Mo.

ANNUAL BANQUET FOR WOMAN'S CLUB

At the annual banquet given by members of the Woman's club with their husbands as guests covers were laid for 27 at Elks hall Saturday evening at 7 o'clock. The table was artistically decorated in green and yellow. Mrs. H. F. Keller, Mrs. W. W. Moyer, and Mrs. C. B. Nupen had charge of arrangements. After the four course dinner a delightful evening was spent in dancing.

KEEP OPEN HOUSE

Member of the B. & P. W. club will hold open house during the week of the teachers convention in Bismarck for guests at the convention daily from 4 to 6 o'clock. Mrs. E. M. Stanton, is chairman of the committee in charge. She is assisted by Miss Rita Murphy, Monday; Mrs. F. R. Smyth, Tuesday; Miss Mary Huber, Wednesday; Mrs. C. B. Nupen, Thursday, and Mrs. Fred Onda, Friday.

PLAY PROVES ENTERTAINING

"Ruth in a Rush," a three act play given by the pupils of Driscoll high school, Saturday evening proved a highly enjoyable entertainment to the large audience attending the performance in the City Hall. The funds obtained in this way will be used for purchasing athletic equipment. A number of Bismarck residents attended.

MRS. LA ROSE VISITS DAUGHTER

Mrs. V. J. LaRose left Saturday for St. Joseph, Minn., to visit her daughter, Miss Marcelle who is a student at St. Benedict's. Before returning she will visit in the Twin Cities.

UNITED IN MARRIAGE

Miss Gladys Paulson of Braddock, and Mrs. Abner Martinson of Kintyre, were united in marriage at the First Lutheran parsonage, Saturday evening, November 17th. Rev. E. F. Alfson officiated. Mrs. E. F. Alfson and Miss Sigrid Alfson were the attendants.

SPEAKS AT HIGH SCHOOL

Rev. George Newcomb spoke before the high school students this morning on the work of the Human Society and Society for the Friendless. He explained what they had planned to accomplish and spoke of their proposed drive for funds.

EASTERN STAR MEETING

The regular meeting of the Eastern Star will be held Tuesday evening at 7:30 o'clock. Election of officers will take place at this time and all members are asked to attend.

B. & P. W. CURRENT EVENTS CLUB

The Current Events club of the B. & P. W. club will hold their meeting at the club rooms Tuesday evening at 7 o'clock.

WAR MOTHERS

The regular monthly meeting of the American War Mothers will be held at the home of Mrs. R. K. Skoel, on West Thayer, in Bismarck, Tuesday afternoon, at 3 o'clock.

WOMAN'S BENEFIT ASSOCIATION

The Woman's Benefit Association of the Macabees will meet this evening at 1 O. O. F. hall. Refreshments will be served.

The Hy-Lo bridge club will meet tonight.

United Cobblers' Election

of officers tonight.

Style Features Important in Schoolgirls' Clothes

By JULIA BOTTOMLEY

In schoolgirls' clothes there are a few unobtrusive, but distinctive, new style features that are important. These either indicate a trend in popular demand or reveal a high light reflected from grown-up fashions, or show an ingenious combination of materials—all very interesting to those who are providing wardrobes for youngsters from six to sixteen. Many a thrifty mother sends her young folks to school, well dressed, in up-to-date but made-over and remodeled frocks, which she has refashioned by introducing these new style notes.

Girls' frocks and coats, like those of grownups, feature straight lines and side fastenings. For coats, the cloths most used are astrakhan, broadcloth, chinilla, velours, bolivia and similar weaves—all serviceable and practical. Fur trimmings are not featured in children's coats this season, but some fabric-furs are used in collars and cuffs and there is a marked liking for flaring sleeves. Brown, tan, gray and dark blue are popular colors. The coat shown at the left of the picture is a fine example of present styles. It has an astrakhan body, velours skirt, collar and cuffs and attractive composition buttons. Chain stitching and French knots of self-color silk, in cross-bar design, decorate the collar and cuffs.

The season has developed a strong demand for plaited skirts of one-piece material, worn with over-blouses of another. Wool crepe, twills, damms and other sturdy fabrics are used for children's frocks, and a fine example in wool crepe is pictured here. Skirts of checked wool with over-blouses of velvet, usually cut kimono style, are prominent in the displays, especially for the smaller girls. A little silk embroidery adorns the over-blouses. Dark gingham in plain colors, with contrasting crossbars, are popular for bloomer suits, and these two-piece frocks, both in cotton and wool, are growing in demand all the time.

AT THE MOVIES

THE ELTINGE Gilda Gray, one of Broadway's most famous dancers, will be seen in her celebrated South Sea dance in Allan Dwan's production of "Lawful Larceny," which comes to the Eltinge Theater today and tomorrow, Monday and Tuesday with Nita Naldi, Hop Hampton, Lew Cody and Conrad Nagel in the featured roles. The intermission of the cabaret, which is one of New York's celebrated dance clubs, was reproduced in the studio as a background for Miss Gray's dance and the four dancing girls, who work with her, also dance. The Cornell College Orchestra, which is a feature at the cabaret, also was hired to play the music for the dance.

In addition to Miss Gray, Alton Mason and Wesley Totten do a specialty dance in the scene, which will be one of the highly colorful spots in "Lawful Larceny." Mr. Dwan's screen version of this popular play is said to be highly diverting in every respect.

CITY NEWS

Parents of Son Mr. and Mrs. Nick Wenzel of the city are the parents of a son born at the St. Alexis hospital.

Mrs. McGray Goes Home Mrs. C. W. McGray who has been under treatment at the Bismarck hospital for several days past as a result of injuries sustained in an automobile accident has returned to her home.

Theosophical Society The Theosophical Society announces its weekly meeting tonight at 8 o'clock at the "Mehawk" corner 5th and Cass St. A lecture on "The functions of the great religions in evolution" will be given by the President. The public is cordially invited. No admission nor collection.

Bismarck Hospital Mrs. Fred Birkmaier, Hebron, Miss Jane Jensen, Driscoll, Amelia Bauer, Lehr, Margaret Hillie, Mether, and Mrs. F. R. Briggs, Braddock, have entered the Bismarck hospital for treatment. Miss Charlotte Viness, Mayville, Mrs. F. R. Briggs, Braddock, Fred Sinerus, Zap, G. S. Boettcher, Hazen, Mrs. Andrew Walker, Wilton, Peter Stoller, Hazen, Mrs. W. J. Zimmerman, Glen Ullin, John Drennan, city, Harry Clark, Hazen, Mrs. C. W. McGray, city, and Gottfried Weber, Wing, have been discharged from the hospital.

St. Alexis Hospital Miss Eva Desauter, Center, Miss Helen Lindblad, city, Mrs. John C. Fischer, Glen Ullin, Eugene Hoff, Richardson, John Sullivan, Mandan, have been admitted to the hospital. Mrs. James D. Wakeman, city, Mrs. Eugene C. Smith, city, Miss Caroline Miller, St. Anthony, Master Waldemar Brer, Mannheim, Mrs. E. C. Wichter, city, C. E. Lindsay, Bentley, Mrs. Max Rehl, Bismarck, Mrs. Jerry Sweeney, McKenzie, Mrs. J. L. Bankston, city, James Shipp, city, Mrs. Catherine Klein, city, Mrs. H. Corwin, city, O. Neville, Zap, N. G.

Capitol The long heralded Metro production, "Long Live the King," starring Jackie Coogan, will come to the Capitol theater tonight. Particular interest is attached to this latest film of the young star as it is his first production under the \$1,000,000 contract which was given him recently in addition to a half million dollar bonus by Metro Pictures Corporation.

"Long Live the King" was only recently completed at Hollywood and its engagement at the Capitol theater is among the early dates allotted to a few houses throughout the country. From various sources the information was current that a huge sum of money was being spent in the making of this film and recent reports definitely fix the sum at \$800,000. Of this huge amount nearly

two-thirds was spent on the construction of the magnificent sets which furnish the atmosphere of "Long Live the King" and which surround Jackie with regal splendor.

As is known to millions of readers, "Long Live the King" was adapted for Jackie from Mary Roberts Rhinehart's novel of the same name. The plot is set in the mythical Balkan kingdom of Lavonia and hinges around the escapades of the little Crown Prince (played by Jackie), who is beset by a band of terrorists who threaten to seize the government. The book is fascinatingly told, filled with romance and excitement aplenty. The producers of the film version of "Long Live the King" have retained these essentials of a good romance and Jackie is said to have the greatest role of his career as the adventurous Prince Otto.

MINOT, FARGO TO BATTLE HERE

TITULAR GAME SET FOR HERE NEXT FRIDAY

Secretary Polk of Williston Announces Decision Over Long Distance Phone

EXPECT A BIG CROWD

The state high school football championship will be settled in Bismarck.

Secretary Harry Polk of Williston, of the state athletic council, announced over the long distance telephone today that it had been definitely decided that the Minot and Fargo high school teams would play in Bismarck on Friday afternoon.

Bismarck, Mandan and Grand Forks had been considered as places for the game, and Fargo was anxious to get it.

Bismarck was chosen as the place for the game both because it was logical from the standpoint of transportation to a neutral field and because it is expected that a great crowd will see the game here. The North Dakota Education association will bring over 1,000 teachers here and many are expected to see the game.

Coach Edgar Houser of Bismarck high school, who said today that the game had definitely been awarded to Bismarck for Friday, has offered the assistance of the local management in making preparations for the game. Secretary Polk will come to Bismarck Wednesday to arrange the contest.

It is expected that 3,000 people will see the game.

Coach Houser, who officiated in the Minot-Grafton game, said today that Minot has a fine team—an exception ally heavy line and a fast backfield, and ought to give Fargo a hard battle. The Minot team's attack lacks variation and the forward pass work against Grafton was disappointing, but the team showed lots of stamina. The work team will be in fine shape for the game.

BIG TEN RACE IS NARROWED TO 3 ELEVENS

Michigan, Illinois and Minnesota Alone Have Clean Slates on Gridiron

Chicago, Nov. 19.—Michigan, Illinois and Minnesota today remain in the fight for the "Big Ten" football championship. Michigan kept her slate clean by defeating Wisconsin Saturday, 6 to 3; Illinois had an easy time with the Mississippi A. and M., 27 to 0, and Minnesota scored a brilliant victory over Iowa, 20 to 7.

Michigan and Minnesota will meet at Ann Arbor next Saturday to settle the question of supremacy between them. The winner of that game will have the right to claim a tie with Illinois for championship honors.

The smashing victory of Minnesota over Iowa was perhaps the biggest sensation of western football. The Gophers, rated as only fair early in the season, have been coming strong. Michigan, the week previous, nosed out a victory over Iowa, 9 to 3.

Wisconsin fans were angry over a decision of Referee Eckersall, which gave Michigan a victory over the Badgers. A Michigan man, after being tackled, got up and ran 50 yards for a touchdown. Eckersall held the ball was not dead and the touchdown counted.

Chicago beat Ohio State, 17 to 3, Saturday with the Thomas brothers of Jamestown, North Dakota, starring. Purdue won her first conference game by defeating Northwestern, 6 to 3, while Indiana fell before Wabash, 29 to 6.

In the east the powerful Yale team crushed Princeton, 27 to 0, before 80,000 spectators. Yale is a heavy favorite to defeat Harvard, which beat Princeton 5 to 0, and win the eastern "Big Three" title. Dobie's Cornell team won 52 to 0 from John Hopkins, the 23rd consecutive victory of the Cornell eleven. Colgate upset Syracuse with a 16 to 7 victory.

RUTH SENDS HIM ROSES

MORRIS ISAACS

MILLER HUGGINS

Cincinnati, home town of Miller Huggins, manager of the world's champion Yankees, put on a big feed for its native idol some nights ago. Nice speeches were made extolling the genius of Mr. Huggins by Morris Isaacs the man who started him in baseball, and by others. And Babe Ruth—possibly you've heard the name before—sent Mr. Huggins a big floral baseball, on which was inscribed the phrase, "The Giant Killer." Mr. Huggins was quite taken back. "I wonder how much it cost," he commented.

ZEV VICTORY IS DISPUTED

Photographs Said to Show In Memoriam's Nose Ahead

Louisville, Nov. 19.—Newspaper photographs of the Zev-In Memoriam match at Churchill Downs Saturday shows the heads of the two horses in on practically a dead-line with In Memoriam having a fraction the better of it, if anything. Spectators on the finish line contended that In Memoriam's nose was projected farther than Zev's at the line of finish. The newspaper photographs seem to bear out this conclusion.

ZEV HELD WINNER

In what probably was the closest, most thrilling finish in the history of the American turf, Zev, winner of the Kentucky Derby and conqueror of Papyrus, reversed the victory In Memoriam scored at Latonia two weeks ago by defeating him by a scant nose in a match race at one and one-quarter miles at Churchill Downs Saturday.

The hurricane finish was so close that hardly a spectator in a crowd of 40,000 persons, with the possible exception of Harry F. Sinclair, owner of the winner, realized that Zev had won until the official decision of the judges had been posted.

B. H. S. CAGERS START SOON

Initial Game of Season Either Dec. 14 or 21

Bismarck high school basketball players will get their initial practice next week, Coach Edgar Houser said today. The first game has not been definitely arranged, but the season will open either on December 14 or 21. Eight games have been definitely scheduled and the schedule is now in the process of completion. The team will not, under present plans, take a Christmas vacation trip.

The population of the earth, at its present rate of gain, will be about 4,000,000,000 in 2014.

circles in St. Petersburg" the story runs.

FLYING FEAR IMPEDES U. S. AIR INDUSTRY

Chicago, Nov. 19. (AP)—Airplane manufacturing on a large scale has virtually no encouragement in the United States, it was declared by Major F. L. Martin, Air Service officer of the Sixth Army Corps Area, U. S. A., in an address here at the air transportation conference of U. S. A. Service officers with the "National Transportation Institute. Because the aircraft business cannot develop and the American public is afraid to fly, he said, the country is in a dangerous position.

"There is practically no manufacturing concern in this country in a position to go into the production of airplanes or air engines in any quantity today," said Major Martin. "It takes a year to train a pilot. Mortality will be extremely heavy in the first air fight. Replacements of men and material will be approximately 100 percent. "One of the greatest needs is to build up the confidence of the people so they will use the airways. American people will not fly today because they feel it is taking their lives in their hands. Travelling by air is a commonplace purpose in Europe. If the public could understand that the equipment and pilots pass rigid government tests, confidence might be built up so that people would use the airways and would support a program for their extension. Then we could have a live and growing aircraft industry and could produce both ships and pilots in any quantity needed."

USE OF SILOS DATES BACK TO ANCIENT ROME

Cleveland, Nov. 19.—The need of the legions of ancient Rome to feed their horses in winter led to the storing of chopped green fodder in pits. These were the first silos, according to O. Brassert, of Plymouth, Ind., and 45 years ago the silo appeared in this country in Michigan.

Mr. Brassert was addressing the meeting here of the silo manufacturers department of the National Association of Farm Equipment Manufacturers. Today millions of silos dot the landscape, he said, and in the dairy sections a silo is considered standard equipment alongside the dairy cow.

Wisconsin leads all states in the use of silos, virtually all the corn crop of the state being put into the silo by means of corn binders, ensilage cutters and blowers with gasoline engines or tractors for power.

New York for the world's heavyweight championship, charging that he was counted out when down only eight seconds and that one of his seconds was forcibly restrained from entering protests of fouls during the battle.

FIRPO CHARGES UNFAIRNESS

Buenos Aires, Nov. 19.—Luis Angel Firpo, heavyweight boxer, on his return home told crowds that greeted him that he had been unjustly treated in his fight with Jack Dempsey in New York for the world's heavyweight championship, charging that he was counted out when down only eight seconds and that one of his seconds was forcibly restrained from entering protests of fouls during the battle.

Protected Birds Deplete Goldfish

New Bedford, Mass., Nov. 19.—Goldfish that turn green and marauding birds, to shoot which is risky, have perplexed cemetery officials in this city. Two ponds, one in Rural Cemetery and the other in Oak Grove Cemetery, have been used as breeding places for goldfish. Recently the school of fish in the former pond was sadly depleted and investigation showed the cause to be a bird that conducted raids nightly. Summary execution was decided upon and carried out. When the guilty bird's body was examined it was found to be a night heron, a bird protected by law, and the executioners learned that in protecting the fish they had laid themselves open to prosecution.

Preparations were being made to remove the 125 goldfish from the Oak Grove Cemetery pond to a greenhouse fountain for the winter when it was discovered that some artificial flowers used in the decoration of graves had been blown into the water. The dyestuff in the flowers had poisoned the fish. So the unfortunate cyprinoids, which were born gold, died green.

SWEDEN HAS ROYAL RESIDENCE FOR SALE

Stockholm, Nov. 19.—Oak hill, one of the most beautiful of the royal residences in Sweden, is again for sale or rent. The last occupant was Ira Nelson Morris, recently American minister to Sweden.

The villa was built 12 years ago by the Romanoffs for Princess Maria Pavlovna when she married Prince Wilhelm. Today it is again being related that the Russian royal family told the Russian minister at Stockholm what it desired in the way of a house for the prince, and to find out the cost. The minister, an honest diplomat and not a business man, made inquiry and was quoted two million by the Swedish contractor. Money meant rubles to the minister, and he told the czar 2,000,000 rubles would be needed.

Russia sent him the money, and then the minister woke up to the fact that the Swedish contractor had meant 2,000,000 Swedish crowns, or 1,000,000 rubles. The minister and the contractor sent the extra 1,000,000 rubles back—in those days this sum amounted to \$500,000—"much to the amazement and smiles of court circles."

Monthly Land Sales Popular

Ft. Yates, Nov. 19.—Seven tracts of land were sold last Saturday at the Indian land sale for the month of November. Five of the tracts sold were in South Dakota and two in North Dakota. All brought fair prices. The highest bid was \$3,210 for a quarter in South Dakota. A quarter in Golden Wealth Township, North Dakota, received the next highest bid of \$2,400. The two tracts in North Dakota were purchased by John Porter of Selfridge, and Carl Borge of Breten.

These monthly land sales are gaining in popularity. The land is being sold where there is an actual demand for it. No land is being forced on to the market. With from seven to nine sales each month, the actual amount sold in a year's time will be almost as large as it was in the "boom" days.

Guard Against "Flu" With Musterole

Influenza, Grippe and Pneumonia usually start with a cold. The moment you get those warning aches, get busy with good old Musterole.

Musterole is a counter-irritant that relieves congestion (which is what a cold really is) and stimulates circulation. It has all the good qualities of the old-fashioned mustard plaster without the blister.

Just rub it on with your finger-tips. First you will feel a warm tingle as the healing ointment penetrates the pores, then a soothing, cooling sensation and quick relief.

Have Musterole handy for emergency use. It may prevent serious illness.

To Mothers: Musterole is now made in milder form for babies and small children. Ask for Children's Musterole. 35c and 65c, in jars and tubes.

Big Saving in Having One

"Murphy Bed and Steel Kitchen in Every home. Saves two rooms. It also saves \$500.00 in cost of home."

Write A. J. OSTRANDER for information. Bismarck, N. D.

What The Brain Can Save The Feet!

It is entirely possible for a total stranger to see everything worth seeing in a great city like New York or London, even without a guide.

True, it would take days and days.

It would cost extravagantly, in money, vexations and wasted time.

But it can be done.

It is possible, tomorrow morning, say, to start the round of every store in this city, and trudge footsore and weary until you have reviewed everything specially worth buying. But who would?

Who would?—when the advertising columns now spread under your eyes offer you the safe, sure guide to every worth-while buy.

Advertisements virtually bring the contents of all the stores to your immediate inspection. Thus your time is saved; your energy spared for needed effort; and your money given the chance of wisest use.

Reading Advertisements is an Economy

DOINGS OF THE DUFFS

DADDY HAS TO GO UP STAIRS AND SHAVE NOW - YOU GO AND PLAY.

AW, I WANT TO GO UP AND WATCH YOU SHAVE.

DADDY, HOW MANY TIMES A DAY DO YOU SHAVE?

I'M LUCKY IF I SHAVE ONCE EVERY DAY.

I'LL BET YOU'D LOOK FUNNY, DADDY IF YOU WOULDN'T SHAVE FOR A YEAR.

WELL, DON'T ASK ME TO DO ANYTHING LIKE THAT.

DO YOU KNOW YOUR HAIR WILL BE GETTING GREY IF IT KEEPS ON?

I DON'T MIND IT GETTING GREY IF IT ONLY KEEPS ON.

FRECKLES AND HIS FRIENDS

I'VE GOT TELL MOM ON YOU - NO, MOM MOM!

FRECKLES WENT AND ATE ALL MY CAKE THAT YOU GAVE ME

FRECKLES DID A THING LIKE THAT?

WHY ARE YOU SO GREEDY? THE IDEA! TAKING YOUR OWN BROTHER'S CAKE AWAY FROM HIM!!

WELL, YOU TOLD ME I WUZ ALWAYS TO TAKE HIS PART!

MINOT, FARGO TO BATTLE HERE

TITULAR GAME SET FOR HERE NEXT FRIDAY

Secretary Polk of Williston Announces Decision Over Long Distance Phone

EXPECT A BIG CROWD

The state high school football championship will be settled in Bismarck.

Secretary Harry Polk of Williston, of the state athletic council, announced over the long distance telephone today that it had been definitely decided that the Minot and Fargo high school teams would play in Bismarck on Friday afternoon.

Bismarck, Mandan and Grand Forks had been considered as places for the game, and Fargo was anxious to get it.

Bismarck was chosen as the place for the game both because it was logical from the standpoint of transportation to a neutral field and because it is expected that a great crowd will see the game here. The North Dakota Education association will bring over 1,000 teachers here and many are expected to see the game.

Coch Edgar Houser of Bismarck high school, who said today that the game had definitely been awarded to Bismarck for Friday, has offered the assistance of the local management in making preparations for the game. Secretary Polk will come to Bismarck Wednesday to arrange the contest. It is expected that 3,000 people will see the game.

Coch Houser, who officiated in the Minot-Grafton game, said today that Minot has a fine team—an exceptionally heavy line and a fast backfield, and ought to give Fargo a hard battle. The Minot team's attack lacks variation and the forward pass work against Grafton was disappointing, but the team showed lots of stamina. The work team will be in fine shape for the game.

BIG TEN RACE IS NARROWED TO 3 ELEVENS

Michigan, Illinois and Minnesota Alone Have Clean Slates on Gridiron

Chicago, Nov. 19.—Michigan, Illinois and Minnesota today remain in the fight for the "Big Ten" football championship. Michigan kept her slate clean by defeating Wisconsin Saturday, 6 to 3; Illinois had an easy time with the Mississippi A. and M., 27 to 0, and the Mississippi scored a brilliant victory over Iowa, 20 to 7.

Michigan and Minnesota will meet at Ann Arbor next Saturday to settle the question of supremacy between them. The winner of that game will have the right to claim a tie with Illinois for championship honors.

The smashing victory of Minnesota over Iowa was perhaps the biggest sensation of western football. The Gophers, rated as only fair early in the season, have been coming strong. Michigan, the week previous, nosed out a victory over Iowa, 9 to 3.

Wisconsin fans were angry over a decision of Referee Eckersall, which gave Michigan a victory over the Badgers. A Michigan man, after being tackled, got up and ran 50 yards for a touchdown. Eckersall held the ball was not dead and the touchdown counted.

Chicago beat Ohio State, 17 to 3. Saturday with the Thomas brothers of Jamestown, N. D., starting. Purdue won her first conference game by defeating Northwestern, 6 to 3, while Indiana fell before Wabash, 29 to 6.

In the east the powerful Yale team crushed Princeton, 27 to 0, before 80,000 spectators. Yale is a heavy favorite to defeat Harvard, which beat Princeton 5 to 0, and win the eastern "Big Three" title. Dobie's Cornell team won 52 to 0 from John Hopkins, the 23rd consecutive victory of the Cornell eleven. Colgate upset Syracuse with a 16 to 7 victory.

RUTH SENDS HIM ROSES

MORRIS ISAACS MILLER HUGGINS

Cincinnati, home town of Miller Huggins, manager of the world's champion Yankees, put on a big feed for its native idol some nights ago. Nice speeches were made extolling the genius of Mr. Huggins by Morris Isaacs the man who started him in baseball, and by others. And Babe Ruth—possibly you've heard the name before—sent Mr. Huggins a big floral bouquet, on which was inscribed the phrase, "The Giant Killer." Mr. Huggins was quite taken back. "I wonder how much it cost," he commented.

FIRPO CHARGES UNFAIRNESS

Buenos Aires, Nov. 19.—Luis Angel Firpo, heavyweight boxer, on his return home told crowds that greeted him that he had been unjustly treated in his fight with Jack Dempsey in New York for the world's heavyweight championship, charging that he was counted out when down only eight seconds and that one of his seconds was forcibly restrained from entering protests of fouls during the battle.

Protected Birds Deplete Goldfish

New Bedford, Mass., Nov. 19.—Goldfish that turn green and marauding birds, to shoot which is risky, have perched cemetery officials in this city. Two ponds, one in Rural Cemetery and the other in Oak Grove Cemetery, have been used as breeding places for goldfish. Recently the school of fish in the former pond was sadly depleted and investigation showed the cause to be a bird that conducted raids nightly. Summary execution was decided upon and carried out. When the guilty bird's body was examined it was found to be a night heron, a bird protected by law, and the executioners learned that in protecting the fish they had laid themselves open to prosecution.

Preparations were being made to remove the 125 goldfish from the Oak Grove Cemetery pond to a greenhouse fountain for the winter when it was discovered that some artificial flowers used in the decoration of graves had been blown into the water. The deadstiff in the flowers had poisoned the fish. So the unfortunate cyprinoids, which were born gold, died green.

SWEDEN HAS ROYAL RESIDENCE FOR SALE

Stockholm, Nov. 19.—Oak hill, one of the most beautiful of the royal residences in Sweden, is again for sale or rent. The last occupant was Iva Nelson Morris, recently American minister to Sweden.

The villa was built 12 years ago by the Romanoffs for Princess Maria Pavlovna when she married Prince Wilhelm. Today it is again being related that the Russian royal family told the Russian minister at Stockholm what it desired in the way of a house for the princess, and to find out the cost. The minister, an honest diplomat and not a business man, made inquiry and was quoted two million by the Swedish contractor. Money meant rubles to the minister, and he told the czar 2,000,000 rubles would be needed.

Russia sent him the money, and then the minister woke up to the fact that the Swedish contractor had meant 2,000,000 Swedish crowns, or 1,000,000 rubles.

The minister and the contractor sent the extra 1,000,000 rubles back—in three days this sum amounted to 1,000,000 much to the amazement and smiles of courtiers.

ZEV VICTORY IS DISPUTED

Photographs Said to Show In Memoriam's Nose Ahead

Louisville, Nov. 19.—Newspaper photographs of the Zev-In Memoriam match at Churchill Downs Saturday shows the heads of the two horses are on practically a dead-line with In Memoriam having a fraction the better of it, if anything. Spectators on the finish line contended that In Memoriam's nose was projected farther than Zev's at the line of finish. The newspaper photographs seems to bear out this conclusion.

ZEV HELD WINNER

In what probably was the closest, most thrilling finish in the history of the American turf, Zev, winner of the Kentucky Derby and conqueror of Papyrus, reversed the victory In Memoriam scored at Latonia two weeks ago by defeating him by a scant nose in a match race at one and one-quarter miles at Churchill Downs Saturday.

The hair-raising finish was so close that hardly a spectator in a crowd of 40,000 persons, with the possible exception of Harry F. Sinclair, owner of the winner, realized that Zev had won until the official decision of the judges had been posted.

B. H. S. CAGERS START SOON

Initial Game of Season Either Dec. 14 or 21

FLYING FEAR IMPEDES U. S. AIR INDUSTRY

Chicago, Nov. 19. (AP)—Airplane manufacturing on a large scale has virtually no encouragement in the United States. It was declared by Major F. L. Martin, Air Service officer of the Sixth Army Corps Area, U. S. A., in an address here at the air transportation conference of U. S. A. Service officers with the National Transportation Institute. Because the aircraft business cannot develop and the American public is afraid to fly, he said, the country is in a dangerous position.

"There is practically no manufacturing concern in this country in a position to go into the production of airplanes or air engines in any quantity today," said Major Martin. "It takes a year to train a pilot. Mortality will be extremely heavy in the first air fight. Replacements of men and material will be approximately 100 percent."

"One of the greatest needs is to build up the confidence of the people so they will use the airways. American people will not fly today because they feel it is taking their lives in their hands. Travelling by air is a commonplace purpose in Europe. If the public could understand that the equipment and pilots pass rigid government tests, confidence might be built up so that people would use the airways and would support a program for their extension. Then we could have a live and growing aircraft industry and could produce both ships and pilots in any quantity needed."

USE OF SILOS DATES BACK TO ANCIENT ROME

Cleveland, Nov. 19.—The need of the legions of ancient Rome to feed their horses in winter led to the storing of chopped green fodder in pits. These were the first silos, according to O. Brassert, of Plymouth, Ind., and 45 years ago the silo appeared in this country in Michigan.

Mr. Brassert was addressing the meeting here of the silo manufacturers department of the National Association of Farm Equipment Manufacturers. Today millions of silos dot the landscape, he said, and in the dairy sections a silo is considered standard equipment alongside the dairy cow.

Wisconsin leads all states in the use of silos, virtually all the corn crop of the state being put into the silo by means of corn binders, ensilage cutters and blowers with gasoline engines or tractors for power.

Monthly Land Sales Popular

St. Paul, Nov. 19.—Seven tracts of land were sold last Saturday at the Indian land sale for the month of November. Five of the tracts sold were in South Dakota and two in North Dakota. All brought fair prices. The highest bid was \$3,210 for a quarter in South Dakota. A quarter in Golden Wealth Township, North Dakota, received the next highest bid of \$2,400. The two tracts in North Dakota were purchased by John Porter of Selfridge, and Carl Borge of Bismarck.

These monthly land sales are gaining in popularity. The land is being sold where there is an actual demand for it. No land is being forced on to the market. With from seven to nine sales each month, the actual amount sold in a year's time will be almost as large as it was in the "boom" days.

Guard Against "Flu" With Musterole

Influenza, Grippe and Pneumonia usually start with a cold. The moment you get those warning aches, get busy with good old Musterole.

Musterole is a counter-irritant that relieves congestion (which is what a cold really is) and stimulates circulation. It has all the good qualities of the old-fashioned mustard plaster without the blister.

Just rub it on with your finger-tips. First you will feel a warm tingle as the healing ointment penetrates the pores, then a soothing, cooling sensation and quick relief.

Have Musterole handy for emergency use. It may prevent serious illness.

To Mothers: Musterole is now made in milder form for babies and small children. Ask for Children's Musterole.

35c and 65c in jars and tubes.

Big Saving in Having One

Murphy Bed and Steel Kitchen in Every home. Saves two rooms. It also saves \$500.00 in cost of home.

Write A. J. OSTRANDER for information. Bismarck, N. D.

Bed ready for use, just like any high-grade metal bed.

What The Brain Can Save The Feet!

It is entirely possible for a total stranger to see everything worth seeing in a great city like New York or London, even without a guide.

True, it would take days and days. It would cost extravagantly, in money, vexations and wasted time. But it can be done.

It is possible, tomorrow morning, say, to start the round of every store in this city, and trudge footsore and weary until you have reviewed everything specially worth buying. But who would?

Who would? — when the advertising columns now spread under your eyes offer you the safe, sure guide to every worth-while buy.

Advertisements virtually bring the contents of all the stores to your immediate inspection. Thus your time is saved; your energy spared for needed effort; and your money given the chance of wisest use.

Reading Advertisements is an Economy

SURVEY SHOWS LOSS OF GAS TO BE GREAT

Much of This Is Due to Negligence in Fields in the United States

OKLAHOMA WASTAGE BIG

Indications Are That From Fourth to Half of Gas Produced Is Lost

Washington, Nov. 19.—Losses of natural gas and oil, through flooding, seepage, waste and negligence in the various fields in the United States have been enormous, according to statements of the Interior Department based upon a recent survey by the bureau of mines.

While the oil and gas industry has progressed steadily and has been practically revolutionized during the 64 years of its existence, losses have run into untold millions of feet of gas and gallons of oil fuel. Flooding of oil sands by water have irreparably damaged entire oil and gas fields, the water trapping underground oil that probably never will be recovered. Water in an oil well so increases lifting costs that many wells are abandoned before the normal recovery of oil and gas is obtained.

Corrosive waters attack casing and eventually eat holes in it. Operators in the Kansas Eldorado field alone expend thousands of dollars annually replacing casing, tubing, sucker rods and other equipment so destroyed.

Wild Well Losses

Although "blow-outs" and "wild wells" were formerly the greatest factors in the loss, modern equipment has made it easier to muzzle the unchecked flows. The old practice of allowing "gushers" to waste oil and gas unchecked until the force either was stopped by cave-ins or decreased an appreciable amount has been done away with, but not before millions of dollars worth of the natural resource were lost. In the early days of the Cushing field in Oklahoma, in 1912 and 1913, it is estimated 100,000,000 feet of gas were wasted daily. Large flowing wells which produced from 1,000,000 to 10,000,000 cubic feet of gas daily were allowed to flow, the operators only gathering the oil. Until recently no use was made of gas produced in the Salt Creek field of Wyoming and the daily loss was estimated at 42,500,000 cubic feet.

Total Gas Consumption

In 1912 the total amount of gas consumed throughout the country was 662,052,000 cubic feet, while the loss of causing-head gas alone was estimated at 141,000,000 cubic feet in that year. It seems probable that from one-third to one-half of all the gas produced is wasted, the bureau's study showed.

Production of gasoline from natural gas was started in 1904 and while the amount recovered has increased by leaps and bounds yearly, it was estimated that since that year at least 2,500,000,000 gallons of gasoline have been wasted, or twice the amount recovered. More than 25,000,000 gallons of gasoline must have been lost in the Hewitt field, in Oklahoma, alone, during this time. From 20,000,000 to 40,000,000 gallons were lost in the Eldorado field.

Evulsions with water cause another great loss. Engineers estimate the production of "cut" oil in the Mid-Continent and Gulf Coast fields in 1920 and 1921 at about 100,000,000 barrels, while half of this was lost at an estimated waste of \$100,000,000.

PLANNED TO ROB OFFICE

basement door of the building and also marks from a Jimmy on the rear door. It is believed the robbers were frightened away before they could complete their job.

KIWANIS CLUB HEARS PLEAS FOR EDUCATION

American Education Weeks Is Observed by Club Meeting in Weekly Luncheon

American Education Week, being celebrated throughout the country this week, was observed by the Kiwanis club at the regular weekly luncheon of the organization today.

C. L. Robertson, who was chairman of the day, explained to members that American Education Week is sponsored by the National Education Association and the American Legion, and is held to emphasize the importance of education.

In introductory remarks Mr. Robertson said that there is a difference in educational opportunities, and called attention to the difference he said exists even among counties within North Dakota. He remarked that while in one county the average length of the school year is more than eight months in another county the average length of term is something over six months.

Miss Minnie Nielson, state superintendent, told the Kiwanians that education has become a universal problem. She pointed to the difference in the wealth backing education, as between various communities and states, and said that this was the reason the Sheppard-Towner bill, which would provide for federal aid for education, was being supported by educators. She declared that it was right and proper that a child living in a community of small wealth should receive the same educational opportunities as a child living in a wealthy community.

Miss Nielson told the Kiwanians of many incidents which happened at the world conference on education in San Francisco. She recounted that the delegates from China informed the conference that whereas in 1906 China had but a few thousand children in school there were over 7,000,000 in school last year. Another educator, she said, declared that Japan was making such a remarkable progress that America might in her complacency fall behind. She also said that there was a world-wide battle against illiteracy being made, and the cause of education advanced in all lands.

M. E. McCurdy, secretary of the North Dakota Education Association, which holds a three-day convention here this week, spoke briefly of the work of that body. He said that many had believed that the education association was simply a teachers' union, but said a study of the resolutions of the association for the last several years would prove that the association had always taken an unselfish stand, one which they believed best for the entire state.

The association has a definite program, he said, naming as some of the planks support of the Sheppard-Towner bill and a campaign for a Secretary of Education in the President's cabinet.

Art Collar of Fargo Kiwanis was a club guest. O. V. Bowman won the attendance prize. A nominating committee was named to prepare slates for the election of the club, to be held in four weeks.

E. B. Cox, as a director of the Association of Commerce, impressed upon the Kiwanians the fact that this is the first time Bismarck will have entertained the state teachers association. Generally, in the past it has been in Fargo or Grand Forks. He declared it was up to everybody to welcome the teachers and show them real Bismarck hospitality.

Users of "INDIAN HEAD" coal all agree that it is the "WONDER LIGNITE." It's hotter, lasts longer, burns clean. BISMARCK LUMBER COMPANY. Phone 17.

RICCARDO MARTIN, WHO SINGS HERE, KNOWN AS REAL AMERICAN SINGER

RICCARDO MARTIN

Few singers know his own United States better than RICCARDO MARTIN. The great American tenor who comes to this city shortly for a recital has visited every state in the Union, and has sung in every important town. People know him both as an opera and concert artist, and his work has always proven of the very highest order. His Pinkerton, in "Madame Butterfly" is always to be remembered and his singing of American songs never fails to bring forth the heartiest applause. Riccardo Martin is a true American. He believes America the greatest musical public in the world. In every town and hamlet they appreciate good music, and it is not the big eastern cities that the best standard of music is required for an artist to prove his worth. During his long career it has been his pleasure to sing from coast to coast, from Canada to Mexico. Big towns, little towns, and even "burbs" have heard this remarkable singer, so wherever he goes, his name needs no recalling. Once he makes an impression and it is a lasting one. His personality and singing never fail to create in the minds of his hearers a "something" that continues to last. Like wine, he improves both in voice and interpretation, as age wears on. The road to popularity was not an easy one, for even so great a singer as Riccardo Martin. He toured and toured and met the people of the country. They heard him sing, and there you are.

EXPLAIN WILLS AND PROBATE LAW TO LIONS

Judge I. C. Davies Tells of Two Kinds in North Dakota

At the noon day luncheon of the Lions club at the Grand Pacific hotel today Judge I. C. Davies explained the two kinds of wills, the olographic and statutory, and the proceedings in handling an estate of a deceased person.

He explained that the olographic was one drawn up by the person himself in his own handwriting and to which there were no witnesses. In this he said there were no formalities in the execution. The Statutory will, it was explained, was one drawn up by someone else but signed by the maker in the presence of two witnesses who were told that the document they were signing was the will of the maker, and in turn signed by the witnesses in the presence of each other and of the maker.

Davies said that it was always best to have a will written in simple language, for not infrequently when complicated it defeated the purpose at which the maker aimed.

After explaining the kinds of will to be made in the state of North Dakota, Judge Davies discussed the subject of guardianship and ward in connection with the

"CASCARETS" 10c IF SICK, BILIOUS, CONSTIPATED

"They Work While You Sleep." When you feel sick, dizzy, upset, when your head is dull or aching, or your stomach is sour or gassy, just take one or two pleasant "Cascarets" to relieve constipation and biliousness. No gripping—nicest cathartic—laxative on earth for Men, Women and Children. 10c boxes, also 25 and 50c sizes—any drug store.

estate of the deceased person, or of incompetents.

He distinguished between administrators who were appointed by the court to administer the estate of a person who had died leaving no will or the executor or executor, who were appointed to take charge of the estate of a person leaving a will. The fact that all proceeding in the probating of estates must be presented to the county judge for a final decision after the consideration of both sides of the problems was also brought out.

At the next meeting of the Lions Thomas Hall, Secretary of State, will discuss "Politics in North Dakota Since Statehood"; Roy Folsom, Jeweler will present the Jewery business Dec. 3; Dec. 10, Charles J. Haugh, secretary and actuary of the North Dakota Workman's Compensation Bureau, will explain in non-technical language how rates are arrived at by the bureau.
